Jaguar IDSP 05 2023

Originator: Spandana Sphoorty Financial Limited

August 16, 2024

Instrument	Amount (₹ crore)@	Balance Tenure (months)*	Credit Enhancement (₹ crore)		Rating[1]	Rating Action
			Cash Collateral	Over Collateral		
Series A1 PTCs	16.71	9	6.00	11.55	CARE A+ (SO)	Reaffirmed

Details of instruments/facilities in Annexure-1
@After July 2024 payout.
*Tenure/door-to-door maturity may change due to prepayments or changes in interest rates if any.

Rationale and key rating drivers

CARE Ratings Limited (CARE Ratings) has reaffirmed the rating of the Series A1 PTCs issued by Jaguar IDSP 05 2023, backed by microfinance loans receivables originated by Spandana Sphoorty Financial Limited (SSFL), at 'CARE A+ (SO)' [pronounced as Single A Plus (Structured Obligation)].

Reaffirmation in the rating is primarily based on the performance of the underlying loans in the last 13 months post-securitisation, robust legal structure, well-defined payment mechanism, significant build-up in cash collateral (CC) and over collateral (OC) – as a percentage of the balance amount of pass-through certificates (PTCs), the subordination of excess interest spread (EIS), servicing capability, and overall performance of SSFL.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors - Factors that could, individually or collectively, lead to positive rating action/upgrade:

- Delinquencies (90+ days past due [DPD]) of <2% and the sustained high collection efficiency (cumulative collection efficiency of >98%).

Negative factors - Factors that could, individually or collectively, lead to negative rating action/downgrade:

- Delinquencies (90+ DPD) of >5% and the sustained lower collection efficiency (cumulative collection efficiency of <90%).
- Sharp deterioration in the credit profile of the originator.
- Non-adherence to key transaction terms envisaged at the time of the rating.

Analytical approach

The rating is reaffirmed based on inter alia, observed and expected performance of pool, presence of credit enhancement, and adherence to the transaction structure.

Pool Performance Summary:
The pool has amortised by 69.41% in 13 months post-securitisation, with nil utilisation of CC. The pool has exhibited low delinquencies. As of July 2024, overdue (OD) (as a percentage of the initial principal outstanding [POS]) is 1.35%. The credit enhancement (CE) available is sufficient to sustain the rating for the balance tenure.

Pool summary (as of July 2024 payout)	
Months post-securitisation	13
Pool amortisation	69.41%
30+ delinquency (percentage of the initial pool POS)	3.72%
90+ delinquency (percentage of the initial pool POS)	2.52%
Overdue amount (percentage of the initial pool POS)	1.35%
CCE	99.38%
CC as a percentage of the balance pool POS	35.93%
Cumulative prepayments	12.37%

Detailed description of key rating drivers

Key strengths:

- CC as a percentage of PTC POS is 35.93%, which remains unutilised, and OC, which is 69.09% of PTC POS.
- The pool has performed on expected lines for 13 months (post-securitisation) and has amortised 69.41%.
- Well-defined payment mechanism and adherence to the transaction structure.
- The 90+ DPD and OD in the pool is low at 2.52% and 1.35% (as a percentage of initial pool POS), respectively.

Key weakness:

- Weak borrower profile as this segment is susceptible to socio-political interference and other external shocks.

Liquidity: Adequate

The inherent liquidity in the structure is adequate. The interest payouts for Series A1 PTCs are promised monthly, while the principal of Series A1 PTCs is promised to be paid by final legal maturity. In case of delinquency, the payouts are expected to be supported by credit enhancement consisting of CC, principal subordination in the form of OC, and EIS.

Key rating assumptions

CARE Ratings has analysed the transaction to assess whether the CE is sufficient to cover shortfalls. Since the transaction is sensitive to the credit quality of the underlying pool, CARE Ratings has analysed the performance of the pool and the overall portfolio performance of the originator. Considering the borrower profile and the nature of the loan, the pool characteristics and the portfolio performance, CARE Ratings has taken the average shortfall from 7% to 9% of the principal outstanding. The base case shortfalls were stressed and other key factors such as the timing of shortfalls, the recovery assumptions, and the time to recovery. CARE Ratings has found that the CE provided is sufficient to cover shortfalls in a stress scenario commensurate with the assigned rating. The pool cash flow has been further adjusted for prepayments of underlying loans, assuming monthly prepayments between 0.5% and 1.0%.

About the company and industry

Industry classification

Macro-economic Indicator	Sector	Industry	Basic Industry
Financial services	Financial services	Finance	Securitisation

SSFL was incorporated on March 10, 2003, under the provisions of the Companies Act, 1956. It was registered as a non-deposit accepting non-banking finance company (NBFC) with the Reserve Bank of India (RBI) and was classified as an NBFC-microfinance institution (MFI) effective April 13, 2015. The company went into CDR, post the AP crisis in 2010 and exited CDR in April 2017.

SSFL was promoted by Padmaja Reddy, who holds around 15% stake in the company and is a member of the board but does not hold significant control. Other major stakeholders are Kedaara Capital and Affiliates (holding 58.19%), JM Financial Products Limited (holding 9.94%), and Valiant Mauritius Partners FDI Ltd. (holding 9.46%). The new CEO, Shalabh Saxena, and the CFO, Ashish, have prior experience in Bharat Financial. The positions of CTO, CBO and CXO were also filled thereafter by Kedaara Capital.

SSFL has presence in 14 states with 1,533 branches. The portfolio is moderately diversified, as Madhya Pradesh constituted the maximum of 21.31%, and the top four states constituted 76.06% of the portfolio. SSFL is focused towards its micro-credit business and follows the joint-liability group (JLG) model for risk mitigation. SSFL's business is targeted towards under-privileged women. Each centre typically manages one to three groups, with each group consisting of eight to 12 members.
