Rationale and key rating drivers

The long-term ratings to the NCDs and bank facilities of Aavas Financiers Limited (Aavas) continue to remain on Rating Watch with Developing Implications. The ratings were placed on watch vide CARE Ratings Limited's PR dated **July 1, 2026**, following multiple changes in the senior leadership team and ongoing refinance audit by the National Housing Bank (NHB). Subsequently, the company has received RBI's approval for appointment of Mr. Manu Singh as MD & CEO, while the positions of CFO and CRO remain interim. Further, as informed by Aavas vide its stock exchange notification dated September 18, 2026, NHB has levied penal charges of ₹1.09 crore on Aavas and has also directed Aavas to prepay refinance facilities aggregating ₹12.24 crore. CareEdge Ratings will continue to engage with the company management to monitor the developments in this regard along with corrective measures taken for the same. Further, post the induction of new senior management personnel, stability and sustenance of business growth will be a key monitorable.

The current rating of Aavas continues to factor in its healthy profitability, comfortable asset quality metrics, competitive pricing on debt mobilisation, while maintaining a strong liquidity profile. The rating also takes into consideration an adequate capitalisation and gearing level, supported by healthy internal accruals. The rating, however, is constrained by Aavas' geographically concentrated operations and target borrower profile which is relatively vulnerable to economic downturns.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors:

- Significant improvement in scale of operations while maintaining healthy profitability and asset quality with GNPA below 1.5% on a sustained basis
- Improvement in geographical diversification

Negative factors:

- Weakening in its profitability with return on total assets (RoTA) declining below 2.5% on a sustained basis
- Deterioration in its asset quality metrics or capitalisation profile
- Weakening in capitalisation profile with managed gearing remaining above 7x on a sustained basis.

Analytical approach:

Standalone approach

Outlook: Not Applicable

¹SEBI: Securities and Exchange Board of India; RBI: Reserve Bank of India; MCA: Ministry of Corporate Affairs; IRDAI: Insurance Regulatory and Development Authority of India; PFRDA: Pension Fund Regulatory and Development Authority

²Complete definitions of the ratings assigned are available at www.careratings.com and in other CARE Ratings Limited's publications.

Detailed description of key rating drivers

Key strengths

Healthy profitability supported by comfortable asset quality

Aavas' profitability metrics remained healthy as it reported a net profit of ₹655 crore in FY26, translating into return on average total assets (RoTA) of 3.3% and return on average tangible net worth (RoNW) of 14.1% as compared to ₹574 crore, 3.3% and 14.3%, respectively, in FY2025. Its profitability is supported by adequate margins, declining operating expenses and contained credit costs so far. Further in Q1FY27, the company reported a PAT of ₹171 crore which translates into an annualised ROTA of 3.20% and RoNW of 13.55%. CareEdge Ratings expects the profitability to remain healthy with RoTA of more than 3% on a steady state basis supported by adequate margins, improving opex and contained credit cost.

Its asset quality metrics also remained comfortable with gross stage 3 (GS3) of 1.11% as on June 30, 2026 (1.05% as on March 31, 2026) and net stage 3 (NS3) of 0.71% (0.68% in March 2026). Aavas' GS3 has remained below 2% steadily over past few years. Further, it carried adequate provision on its GS3 of 36.80% as on June 30, 2026. Even in terms of softer bucket delinquencies, it has been able to maintain the same at comfortable level; its 1+ days past due (dpd) stood at 3.76% in June 2026 (3.2% in March 2026). Nonetheless, the asset quality remains susceptible to stress due to the company's exposure to low-income borrowers, who are more vulnerable to income disruptions, particularly in economic downturns. Aavas' lifetime write offs of less than ₹42 crore (up till June 2026) also reflect entity's ability to make recoveries and keep overall asset quality under control. CareEdge Ratings expects its overall asset quality to remain comfortable going forward.

Diversified resource profile

Aavas' funding profile remains diversified with 35+ lending relations as on June 30, 2026 including public & private sector banks and domestic as well as foreign financial institutions. Its resource profile as on June 30, 2026 comprised funding from banks and financial institutions comprising ~54% of its borrowings, refinance from National Housing Bank (NHB; 10%), non-convertible debentures (NCDs; 9%), commercial paper and cash credit (CP and CC; 1%) and rest via direct assignment and co-lending (~27%). CareEdge Ratings notes that the share of NHB funding in Aavas' funding mix has been steadily declining, and recently NHB has directed the company to repay refinance facilities aggregating ₹12.24 crore in accordance with NHB refinance circulars. The incremental borrowings done in Q1FY27 were ~₹1,470 crore at an incremental cost of borrowing of 7.74%. The ability of the company to mobilise the funds at competitive rates post management transition, shall be a key monitorable.

Adequate capitalisation

Aavas' capitalisation remained adequate with capital-to-risk weighted asset ratio (CRAR) of 44.60% and AUM/TNW of 4.7x as on March 31, 2026 as compared to 44.5% and 4.7x, respectively, as on March 31, 2025. Its capitalisation profile remained supported by healthy internal capital accretion with RoNW of 14.1% in FY2026 and 14.3% in FY25. As on June 30, 2026 the CRAR stands at 43.2% with AUM/TNW of 4.68x. With expected growth rate of ~18% over next couple of years and similar internal accretion, CareEdge Ratings expects its AUM/TNW to remain below 5.5x in near future. However, a higher than-expected growth and/or lower profitability, might require the entity to raise capital to support its profile.

Key weaknesses

Changes in senior management and penalty by NHB

In FY2027 year till date (YTD), the company witnessed several changes in its senior management, including the resignation of Mr. Sachinder Bhinder as Managing Director & Chief Executive Officer (MD & CEO) in April 2026, followed by resignation of Mr. Selvin Uthaman (ex-CBO), Mr. Ghanshyam Rawat (ex-CFO and co-founder) and Mr. Ashutosh Atre (President & CRO). Subsequently Mr. Manu Yeshpal Singh succeeded Mr. Bhinder as Managing Director and Chief Executive Officer, which was recently approved by RBI as well. CareEdge Ratings notes that post the induction of new senior management personnel, stability and sustenance of business growth will be a key monitorable and it will continue to monitor the progress of the company. Furthermore, as informed by Aavas vide its stock exchange notification dated September 18, 2026, NHB has levied penal charges of ₹1.09 crore on Aavas and has also directed Aavas to prepay refinance facilities aggregating ₹12.24 crore. CareEdge Ratings will continue to engage with the management to understand the developments in this regard along with corrective measures taken for the same.

High geographical concentration

As on June 30, 2026, Aavas operates in 15 states/ union territories (UTs) via a network of 435 branches, expanding into 1 more UT i.e. Chandigarh. However, its state-level concentration remains high with top 3 states (Rajasthan, Maharashtra and Madhya Pradesh) accounting for ~65% of its AUM as on June 30, 2026. While the concentration has improved from ~71% in March 2022,

the share of top 3 states remains high, making it susceptible to concentration risk. CareEdge Ratings takes note of management's plan to gradually diversify into other states which is expected to reduce concentration from top states.

Exposure to relatively vulnerable borrower segment

Catering to relatively weaker and low-to-middle income segment borrowers who are more vulnerable to economic downturns, Aavas' asset quality remains susceptible to economic cycles and periods of financial stress. This risk, however, is mitigated to some extent through adequate underwriting systems along with low average LTV on portfolio of 55-60%.

Liquidity: Strong

Aavas' liquidity profile remains strong with on-book cash and cash equivalents of ₹1,954 crore and undrawn sanction lines of ₹586 crore, as on June 30, 2026. As per its ALM for June 30, 2026, it had positive cumulative mismatches across all time buckets. The average tenure of its borrowings is ~7 years, which matches the behavioural maturity of its loan assets of ~7 years, helping it maintain a healthy ALM. Further, Aavas has been able to raise debt funds from various lenders at competitive rates.

Environment, social, and governance (ESG) risks

Although Aavas' service-oriented business model limits its direct exposure to environmental risks, credit risk may arise if operations of any asset class of the portfolio are adversely impacted by environmental factors. AFL intends to build a strategic approach, where environment, social and governance fundamentals are embedded into the business. For this, it has signed a partnership with IFC, a member of the World Bank Group, for promoting affordable green homes in India with the help of environmental friendly architecture of individual homes.

Social risks in the form of cybersecurity threat or customer data breach or mis-selling practices can affect AFL's regulatory compliance and reputation, and hence remain a key monitorable.

About the company and industry

Industry classification

Macroeconomic indicator	Sector	Industry	Basic industry
Financial Services	Financial Services	Finance	Housing Finance Company

Incorporated in February 2011 as subsidiary of AU Small Finance Bank (AUSFB), Aavas Financiers Limited (Aavas/ AFL) is a housing finance company which acquired its HFC License in August 2011 and commenced operations from March 2012. In June 2016, AU SFB divested majority of its shareholding in favour of two private equity players – Kedaara Group and Partners Group ('promoters').

Aavas operates in affordable financing segment offering housing loans (HL), MSME loans backed by property and loans against property (LAP) to economically vulnerable segments in the middle and lower income salaried and self-employed borrowers in India's rural and semi urban populace. The loans are primarily advanced for purchase and construction of single unit houses. As on March 31, 2026, Aavas reported assets under management (AUM) of ₹ 23,452 crore managed via 435 branches spread across 15 states/UTs.
