Rationale and key rating drivers

CARE Ratings Limited (CareEdge Ratings) has assigned and reaffirmed KISETSU Saison Finance (INDIA) Private Limited's (Credit Saison India's) ratings at 'CARE AAA; Stable' (non-convertible debentures [NCDs], long-term bank facilities and subordinate debt) and 'CARE A1+' (commercial paper [CP] and short-term bank facilities). Ratings continue to derive strength from Credit Saison India's strategic importance to the parent company, Credit Saison Co. Limited, Japan (CS Japan) demonstrated by consistent capital support, shared brand name, board and management oversight, and parent's continued role in integrating risk management policies and systems. Ratings also take cognisance of the investment by Mizuho Bank, Japan, and its subsidiary, which has strengthened the investor base while control continues to vest with the Credit Saison group. Ratings also factor in Credit Saison India's growing scale of operations, comfortable capital metrics, and diversified resource profile. These positive rating factors outweigh the company's limited portfolio seasoning in direct lending (direct-to-market [DTM]) segment with focus on unsecured direct lending susceptible to deterioration in asset quality and moderate earnings profile.

NCD with ISIN INE0DZE07010 has been withdrawn basis full repayment, as confirmed by the issuer and which is in line with the withdrawal policy of CareEdge Ratings.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors

- Not applicable

Negative factors

- Material dilution in the ownership, expected support from, and strategic importance to CS Japan.
- Substantial weakening of CS Japan's credit profile.
- Material deterioration in the asset quality, with net non-performing assets (NNPA) to net worth ratio > 15% on a sustained basis.
 - Deterioration in profitability metrics with sustained losses.
 - Increase in net leverage over 5x.

¹SEBI: Securities and Exchange Board of India; RBI: Reserve Bank of India; MCA: Ministry of Corporate Affairs; IRDAI: Insurance Regulatory and Development Authority of India; PFRDA: Pension Fund Regulatory and Development Authority

²Complete definitions of the ratings assigned are available at www.careratings.com and in other CARE Ratings Limited's publications.

Analytical approach: Standalone

CareEdge Ratings has analysed Credit Saison India's standalone financials, factoring linkages and support from the ultimate parent, CS Japan. Support in the form of capital infusion and management guidance is expected to continue.

Outlook: Stable

Stable outlook factors in CareEdge Ratings' belief that Credit Saison India will continue to remain strategically important to the Credit Saison Group and will continue receiving financial, managerial, and other forms of support as needed. The outlook also reflects the company will continue to grow its scale of operations while expecting it to maintain comfortable asset quality.

Detailed description of key rating drivers
Key strengths
Strategically important to parent (Credit Saison group)

Founded in 1951, the Credit Saison group has been a key player in consumer and small and medium-sized enterprises (SME) finance for over seven decades and evolved into a leading credit card issuer and diversified financial services provider. CS Japan, a major credit card issuer in Japan with ~31 million cardholders, expanded its offerings across payments, leasing, finance, real estate, entertainment, and global segments. As a part of its global expansion strategy, CS Japan is increasing its presence in Asia, currently operating in seven countries. The group's deliberate efforts to diversify across segments and geographies have resulted in a substantial balance sheet size of ~₹291,665 crore as on March 31, 2026, (~₹266,255 crore as on March 31, 2025).

CS Japan's earnings have remained resilient in the last 15 years owing to its business diversification efforts, resulting in healthy internal accruals. The company's consolidated profit after tax (PAT) stood at ~₹3,651 crore in FY26 (~₹3,772 crore in FY25). The group return on total assets (ROTA) moderated in FY26 to ~1.25% from 1.42% in FY25. The group's ability to sustain profitable operations has generated growth in its net worth to ₹45,676 crore as on March 31, 2026 (March 2025: ₹40,985 crore).

While the global business division extends its presence across countries and entities, the Credit Saison Group continues to hold a particularly optimistic outlook on its Indian operations, anticipating them to serve as a significant growth catalyst for the group's global business in the near future. This underscores strategic importance of Credit Saison India within the group, evident through shared branding and consistent capital support totalling ₹2,827 crore till FY26. Credit Saison India has also leveraged on the parent's relationship with Japanese banks to raise funds and resource mobilisation.

The Board continues to be controlled by the parent and includes senior executives from CS Japan. Reinforcing the integration between the Indian subsidiary and the parent at the senior leadership level, Presha Paragash, WTD & CEO of Credit Saison India, has also been inducted as an Executive Officer of CS Japan, reflecting direct representation of the India business within the parent's executive cadre.

CS Japan had been instrumental in establishing robust risk management policies and systems for optimal performance of its Indian subsidiary. While the Indian management team operates independently in day-to-day activities, rigorous parent oversight is maintained through periodic reviews and approval of key decisions. CareEdge Ratings expects Credit Saison India to receive continued capital, managerial, and other forms of support, as needed from the Credit Saison Group.

Comfortable capitalisation metrics

As on March 31, 2026, Credit Saison India maintained robust capitalisation, with a tangible net worth (TNW) of ₹4,805 crore (March 31, 2025: ₹3,565 crore), capital adequacy ratio (CAR) at 21.41% (March 31, 2025: 19.30%) and tier-I CAR at 18.94% (March 31, 2025: 18.12%). Increase in TNW was supported by an equity infusion of ₹800 crore in FY26 (₹150 crore in September 2025 and ₹650 crore in March 2026) and healthy internal accruals.

As on June 30, 2026, the TNW improved to ₹4,946 crore owing to internal accruals. The CAR remained comfortable, with overall CAR at 19.79% and tier-I CAR at 17.34% in the same period. Current level of capitalisation is adequate to fund its growth targets in the medium term. Considering demonstrated capital support from CS Japan in the past, CareEdge Ratings expects support from the group to fund growth operations.

The gearing ratio stood at 4.08x as on June 30, 2026, compared to 3.88x as on March 31, 2026, and 4.41x as on March 31, 2025. Correspondingly, net leverage increased to 3.79x from 3.53x as on March 31, 2026, though it remained marginally below 3.85x as on March 31, 2025.

With the increase in scale of operations expected to necessitate additional borrowings, CareEdge Ratings expects gearing to rise gradually but remain below 5x (net gearing) on a sustained basis.

Improving scale of operations driven by DTM lending

Credit Saison India began its lending operations in November 2019 with co-lending/partnerships and wholesale lending. Its assets under management (AUM) grew to ₹22,634 crore as on March 31, 2026, from ₹18,175 crore as on March 31, 2025, registering year-on-year (y-o-y) growth of ~24.54% and further to ₹24,822 as on June 30, 2026, sequential growth of 9.67%. As on June 30, 2026, the loan book comprised 44.75% in co-lending/partnerships (FY25: 49.87%, FY26: 44.18%), 13.72% in wholesale lending to non-banking finance companies (NBFCs) (FY25: 16.80%, FY26: 15.81%), 34.45% in direct lending to consumers and small and medium enterprises (SMEs) (FY25: 31.78%, FY26: 33.67%) and 6.93% in loans against property (LAP) (FY25: 1.56%, FY26: 6.25%) and 0.15% comprises affordable housing. The LAP portfolio increased nearly five-fold to ₹1,341 crore in FY26 from ₹271 crore in FY25 and further to ₹1,637 crore as on June 30, 2026, in line with the company's strategy to increase the share of secured retail lending.

Under co-lending/partnerships, the company partners with other FinTechs and NBFCs to lend to consumers or micro, small and medium enterprises (MSMEs) on an agreed ratio. Co-lending/partnership book is largely protected by default loss guarantee (DLG) cover provided by the partner for up to 5% of disbursements, which provides a cushion against credit losses. Under wholesale lending, it lends to balance sheet of the partner NBFCs primarily operating in the consumer, MSME, vehicle finance, and micro-finance institutions (MFI) segments. Wholesale loans provided to NBFCs are secured by receivables. Direct SME loans are largely covered under the Credit Guarantee Fund Trust for Micro and Small Enterprises (CGTMSE), while direct consumer loans remain unsecured.

However, given the company's current underwriting practice of disbursing loans only to consumers with strong credit profiles, CareEdge Ratings expects the credit risk in the unsecured consumer portfolio to remain manageable, supporting the overall portfolio quality.

Diversified resource profile

The company benefits from shared brand name with CS Japan in raising resources, which CareEdge Ratings expects to continue. Overall borrowings increased to ₹18,647 crore as on March 31, 2026 (March 31, 2025: ₹15,730 crore). Funding diversification has improved further, with the company actively tapping capital markets (NCDs, CPs, external commercial borrowings [ECB]) alongside term loans and working capital facilities from banks.

Borrowings further increased to ₹20,205 crore as on June 30, 2026. The borrowing mix comprised term loans, WCDL/STL/CC and other bank facilities at 49.07%, ECBs at 36.60%, NCDs at 4.56% and CPs at 9.77%. By lender category, public sector banks contributed 34.25%, followed by foreign banks at 33.89%, private sector banks at 13.18%, financial institutions, including SIDBI, NABARD and MUDRA, at 3.77%, NBFCs at 0.58%, and capital-market instruments, comprising NCDs and CPs, at 14.33%. The borrowing profile remains diversified across domestic banks, financial institutions, NBFCs and overseas lenders, including Japanese, Taiwanese and Korean institutions, supporting access to varied funding sources at competitive rates.

As on March 31, 2026, Credit Saison India had leveraged funds from 49 lenders, including private sector banks (PVBs; 11), public sector banks (PSBs; 9), foreign banks (18), financial institution (3), NBFC (1), Mutual Fund (5), Corporate (2). Due to the group's strong brand image, the company has been able to and is expected to avail funds from reputed institutions at competitive rates.

Key weaknesses

Asset quality susceptible to risk in unsecured lending

The portfolio has completed three cycles and has achieved moderate seasoning, particularly in the direct lending book. The gross Stage 3 ratio increased from 0.82% as of March 31, 2024, to 1.21% as of March 31, 2025, and 1.27% as of March 31, 2026, before declining to 1.13% as of June 30, 2026. Net Stage 3 stood at 0.40% as of June 30, 2026, compared to 0.44% as of March 31, 2026, and 0.40% as of March 31, 2025. Contribution in delinquency was led by direct SME book, followed by Affordable housing and LAP book, wholesale book, co-lending/partnerships book and direct consumer book.

The provision coverage ratio (PCR) for Stage 3 assets stood at 66.46% as of March 31, 2026 (March 31, 2025: 67.45%) and remained broadly stable at 65.52% as of June 30, 2026. Overall PCR on the total loan portfolio normalised to 2.49% as of March 31, 2026 (March 31, 2025: 2.97%), partly reflecting the RBI directive dated February 13, 2026, which permitted NBFCs to once again include default loss guarantee (DLG)/first loss default guarantee (FLDG) cover while computing expected credit loss (ECL) provisions, reversing the 2025 directive that required such guarantees to be excluded. NNPA to TNW remained comfortable at 1.87% as of June 30, 2026, compared to 1.92% as of March 31, 2026, and 1.91% as of March 31, 2025.

As the company continues its growth trajectory, its ability to maintain stable asset quality on a steady-state basis while successfully scaling up its business, will be a key monitorable.

Moderate earnings profile

Credit Saison India's earnings profile improved materially in FY26 in absolute terms, with PAT rising to ₹336 crore (FY25: ₹107 crore), return on net worth (RONW) improving to 8.02% in FY26 (FY25: 3.05%) and ROTA improving to 1.52% (FY25: 0.66%).

Yield on advances moderated to 15.98% in FY26 from 17.54% in FY25; however, the impact was partly offset by decline in the cost of funds. Profitability improved during the year, supported by lower credit costs and contained operating expenses. Operating expenses stood at ₹1,052 crore (Opex/average total assets: 4.77%, FY25: 5.34%), reflecting benefits of operating leverage. Credit cost reduced to 2.50% of average total assets in FY26 (FY25: 4.04%), majorly considering the normalised ECL framework (reversal of RBI's directive to exclude credit enhancements under DLG arrangements from the ECL computation). The momentum continued in Q1FY27, with annualised ROTA and RONW strengthening to 1.92% and 10.04%, respectively.

As a part of its branch-led direct lending model, the company continues to invest in branch expansion, hiring, technology and risk management systems, which is expected to keep operating expenses elevated. The branch count increased to 89 as on March 31, 2026 (March 31, 2025: 62; March 31, 2022: 4), with the company present across 28 states and eight Union Territories (UTs) and employing 1,475 people. Going forward, the company's ability to sustain improvement in profitability with growing scale of operations while keeping operating and credit costs under control will remain a key monitorable.

Liquidity: Strong

As on June 30, 2026, the company had an unencumbered cash and bank balances of ₹1,441 crore, liquid investments of ₹476 crore and undrawn sanctions of ₹5,251 crore, resulting in total available liquidity of ₹7,168 crore. This is further supported by inflows from advances of ₹15,769 crore in the next one year. This compares favourably against debt repayment obligations of ₹9,151 crore for the next one year. The asset liability management (ALM) position also remains comfortable, with positive mismatches in the near-term buckets. Liquidity continues to remain supported by adequate on-balance-sheet liquidity buffers, undrawn sanctions and access to diversified lender base.

About the company and industry

Industry classification

Macroeconomic indicator	Sector	Industry	Basic industry
Financial services	Financial services	Finance	Non-banking financial company (NBFC)

Credit Saison India is a subsidiary of CS Japan. The company was incorporated in June 2018 and commenced lending operations in November 2019 after receiving its NBFC license from the Reserve Bank of India (RBI) in September 2019. It is registered with the RBI as a systemically important non-deposit taking NBFC (NBFC-ND-SI). As a part of its initial strategy, the company commenced operations through partnership-led business verticals, including wholesale lending to other NBFCs and co-lending arrangements with NBFCs and fintechs.

In Q4FY22, the company launched its direct lending verticals catering to MSMEs and consumers. In Q4FY24, it expanded its product suite by entering the secured MSME LAP segment. In H1FY26, the company further diversified its portfolio by foraying into the affordable housing segment.

About us:

Established in 1993, CareEdge Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the Reserve Bank of India. With an equitable position in the Indian capital market, CareEdge Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CareEdge Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CareEdge Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit. Disclaimer:

This disclaimer pertains to the ratings issued and content published by CARE Ratings Limited ("CareEdge Ratings"). Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. Any opinions expressed herein are in good faith and are subject to change without notice. The rating reflects the opinions as on the date of the rating. A rating does not convey suitability or price for the investor. The rating agency does not conduct an audit on the rated entity or an independent verification of any information it receives and/or relies on for the rating exercise. CareEdge Ratings has based its ratings/outlook on the information obtained from reliable and credible sources. CareEdge Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. The users of the rating should rely on their own judgment and may take professional advice while using the rating in any way. CareEdge Ratings shall not be liable for any losses that user may incur or any financial liability whatsoever to the user of the rating. The use or access of the rating does not create a client relationship between CareEdge Ratings and the user.

CAREEDGE RATINGS DISCLAIMS WARRANTY OF ANY KIND, EXPRESS, IMPLIED OR OTHER WARRANTIES OR CONDITIONS, TO THE EXTENT PERMITTED BY APPLICABLE LAWS, INCLUDING WARRANTIES OF MERCHANTABILITY, ACCURACY, COMPLETENESS, ERROR-FREE, NON-INFRINGEMENT, NON-INTERRUPTION, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE OR INTENDED USAGE.

Most entities whose bank facilities/instruments are rated by CareEdge Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CareEdge Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. CareEdge Ratings does not act as a fiduciary by providing the rating. The ratings are intended for use only within the jurisdiction of India. The ratings of CareEdge Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades. CareEdge Ratings has established policies and procedures as required under applicable laws and regulations which are available on its website.
