Rationale and key rating drivers

Ratings reaffirmation to bank facilities and instruments of Wonder Home Finance Limited (WHFL) continues to factor in strong promoter support, healthy portfolio growth and comfortable capitalisation. The company's capital profile has been further strengthened by a recent ₹500 crore infusion through compulsory convertible preference shares (CCPS) by Singapore-based private equity fund Growthem Capital Partners (GCP), through its subsidiary Hydros Investments Pte. Ltd. The capital raise has aided the growth momentum of the company. The company's asset under management (AUM) increased to ₹3,655 crore as on June 30, 2026, from ₹2,389 crore as on March 31, 2025.

The rating continues to derive comfort from strong promoters, with the Patni family holding ~78.20% stake as on June 30, 2026, and infusing capital at regular intervals. Apart from capital support, WHFL enjoys financial flexibility driven by resourceful promoters, common shareholding, sharing common logo and brand name with the group's flagship company, Wonder Cement Limited (WCL; rated 'CARE AA; Stable / CARE A1+').

However, these strengths are offset by WHFL's limited seasoning of the loan portfolio owing to the nascent stage of operations, modest experience of Wonder Group in the housing finance business, its moderate, despite improving, profitability metrics, and regionally concentrated operations. While CareEdge Ratings takes cognisance of significant growth in business amid healthy asset quality and diversification, the company's ability to demonstrate sustained improvement in profitability and franchise growth shall remain a key monitorable. Going forward, as economies of scale and operational efficiencies take effect, CareEdge Ratings expects WHFL's profitability metrics to stabilise in the medium-term.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors: Factors that could individually or collectively lead to positive rating action/upgrade:

- Significant business growth with geographical diversification and improvement in profitability with return on managed assets (ROMA) remaining above 3.0% on a sustained basis.

Negative factors: Factors that could individually or collectively lead to negative rating action/downgrade:

- Material dilution in the ownership by, expected support from, and strategic importance to Wonder Group.
- Deterioration in the credit profile of Wonder Group.
- Material decline in the asset quality, with gross non-performing assets (GNPA) exceeding 2.00% on a sustained basis.
- Weakening capital structure with the overall gearing remaining above 3.5x on a sustained basis.

Analytical approach:

Standalone and factoring in linkages with the promoters of Wonder Cement Group. CareEdge Ratings has analysed WHFL on a standalone basis while factoring in the resourceful promoters and expectations of continued capital support. In addition to capital support and management oversight, WHFL shares common brand name and logo with the group's flagship company, WCL (rated 'CARE AA; Stable/ CARE A1+').

Outlook: Stable

The outlook is "Stable" considering expectation of continued need-based capital support from the promoters to drive the business growth, while keeping the asset quality under control.

¹SEBI: Securities and Exchange Board of India; RBI: Reserve Bank of India; MCA: Ministry of Corporate Affairs; IRDAI: Insurance Regulatory and Development Authority of India; PFRDA: Pension Fund Regulatory and Development Authority

Detailed description of key rating drivers

Key strengths

Strong parentage, shared brand name, and continued capital support from promoters

WFHL is a part of the Rajasthan-based Wonder group, which is promoted by the Patni family. As on June 30, 2026, promoters held ~78.20% stake in the company in their individual capacity and through family trusts. By virtue of its shareholding, WHFL benefits from its promoters' strong support as demonstrated by capital infusion at regular intervals and articulation of the promoter's intent to continue maintaining majority shareholding in the company. Apart from the capital support, WHFL enjoys financial flexibility driven by resourceful promoters, common shareholding, logo and brand name sharing with the group's flagship company, Wonder Cement Limited (WCL; rated 'CARE AA; Stable / CARE A1+'). WHFL continues to be an integral part of Wonder group's business, considering that the company is the group's sole venture in the financial services domain. Since inception, promoters have infused equity to the tune of ~₹800 crore till June 30, 2026.

CareEdge Ratings expects the promoters to continue maintaining majority shareholding in the company and provide need-based capital support to WHFL.

Experienced management and board

Ashok Patni, Chairman and Founder of the Wonder group has over three decades' experience in the marble industry and over 10 years' experience in the cement industry. The Board comprises three Directors from Patni family, five independent directors, one whole-time director and one nominee director representing GCP. The family has experience in industries/sectors which are ancillary to housing finance industry. While WHFL is promoted by the Patni Family, the company is run by professional management, led by Sanjay Singh Rajawat, who is the Chief Executive Officer (CEO) of WHFL and has nearly three decades' experience in the banking sector. He is assisted by a professional leadership team with relevant experience across business verticals.

Healthy asset quality

Given the significant growth in portfolio in recent financial years, WHFL's asset quality continues to be healthy as reflected by Gross Stage 3 (GS3) and Net Stage 3 (NS3) of 0.36% (PY: 0.19%) and 0.22% (PY: 0.12%), respectively, as on March 31, 2026, which further stood at 0.51% and 0.32% respectively as on June 30, 2026. In line with asset quality moderation witnessed in industry, the company's on time portfolio declined to 96.12% as on June 30, 2026 (96.87% as on March 31, 2026), compared to 97.33% as on March 31, 2025. While the borrower class in affordable segment is relatively vulnerable, WHFL's granular portfolio and low NS3 to tangible net worth (TNW) of 0.72% as on June 30, 2026, provides comfort.

Given the company's expansion in newer geographies, and fairly unseasoned loan book, the asset quality metrics will continue to be a key monitorable.

Comfortable capitalisation profile supported by recent capital infusion and group's demonstrated financial flexibility

The company's capitalisation profile continues to be comfortable with recurring equity infusions from the promoters aggregating to ~₹800 crore and recent capital infusion of ₹500 crore through CCPS from GCP (a Singapore-based Private Equity Fund). First tranche of ₹250 crore was infused in January 2026 and the second tranche of ₹250 crore was infused in June 2026.

With the said capital raise, WHFL's TNW grew to ₹1,424 crore and its gearing stood at 1.48x as on June 30, 2026, against TNW and gearing of ₹842 crore and 1.76x respectively, as on March 31, 2025.

Benefiting from the promoter association and financial flexibility, the company has been able to raise debt at competitive rates from private and public sector banks. As on June 30, 2026, the company has established relationships with around 25 lenders. Of the total borrowings as on June 30, 2026, 39.41% were from private banks, 32.97% from public sector banks, 15.72% from National Housing Bank (NHB), 4.94% from NBFCs, 4.92% from securitisation, 1.32% in the form of unsecured NCDs from the promoter and 0.72% from foreign banks. The average cost of borrowings for funds raised in FY26 stood at ~8.52%. Additionally, majority borrowings as on June 30, 2026, ~85% continues to be backed by personal guarantee from promoters. The company has also started tapping securitisation route for assigning its loan against property (LAP) book to diversify its liability profile.

CareEdge Ratings expects gearing levels to remain below 3.5x on a steady-state basis, in line with the growth plans of the company.

Key weaknesses

Low portfolio seasoning

WHFL commenced lending operations in 2018 as a non-deposit-accepting housing finance company (HFC). The company's AUM increased from ₹851 crore in FY23 to ₹3,299 crore in FY26 at a 3-year compounded annual growth rate (CAGR) of 57% driven by an improving disbursement momentum. The growth momentum continued in Q1FY27 with AUM growing to ₹3,655 crore as on June 30, 2026. Portfolio vintage remains relatively limited as the business commenced operations during FY18 and considering the significant growth in AUM in recent years, the asset quality is yet to be established due to lack of seasoning.

Moderate, despite improving, profitability metrics

The company's disbursement momentum remained healthy with ₹1,528 crore disbursed in FY26 (₹1,210 crore in FY25, ₹834 crore in FY24). WHFL's net interest margin (NIM) improved to 6.23% in Q1FY27 and 5.82% in FY26 from 4.86% in FY25, driven by moderation in cost of funds on account of the policy rate cuts, improvement in yields considering change in accounting for disbursements, and moderation in the gearing levels.

The ROMA has improved from 1.03% in FY25 to 1.87% in FY26, driven by healthy NIMs and improved operating efficiency. WHFL has added 20 branches in FY26 and 29 branches in Q1FY27, however, the operating expenses remain controlled and has in fact moderated on account of economies of scale. The annualised ROMA for Q1FY27 has slightly moderated to 1.69% on account of credit cost due to seasonality effect on the loan portfolio. CareEdge Ratings expects the ROTA to remain above 2% in FY27 and FY28, supported by the reduced leverage post equity raise and gradual reduction in opex costs with economies of scale.

Sole financial services entity of Wonder Group promoters with exposure to weaker borrower profile

The Wonder Cement group has no prior experience in the retail lending segment. Housing finance is an altogether different asset class compared to conventional financing and requires a thorough understanding and experience in this domain. As on June 30, 2026, the company's product offering includes affordable housing loans (71% of AUM) and LAP (29% of AUM). The company's customer base consisting of self-employed individuals (~63% of AUM as on June 30, 2026), presents a higher credit risk due to potential income volatility. CareEdge Ratings opines, going forward, promoters' ability to successfully establish their presence in the housing finance business shall be critical.

Regionally concentrated operations; improvement witnessed in the recent past

WHFL commenced its operations from Rajasthan, with its target to stabilise itself in the Rajasthan market, leveraging the group's established presence in the geography. Resultantly, the company's portfolio remains concentrated in Rajasthan. However, to enhance its PAN-India presence, the company has been expanding into newer geographies/locations. Consequently, portfolio concentration in Rajasthan continued to decline and stood at ~38% of AUM as on June 30, 2026, from ~40% as on March 31, 2026 (~44% as on March 31, 2025). WHFL's ability to successfully expand its operations across geographies while maintaining its asset quality will remain a key monitorable.

Liquidity: Adequate

As on June 30, 2026, the company had debt obligations of ₹482 crore for the next one year against inflows from advances of ₹372 crore, given the long-term nature of the loan book. However, the liquidity profile derives comfort from unencumbered cash and cash equivalents of ₹110.70 crore, and undrawn bank lines of ₹65 crore. As per the asset liability management (ALM) dated June 30, 2026, there were no negative cumulative mismatches across all time buckets up to 1 year.
