Details of instruments/facilities in Annexure-1.

Rationale and key rating drivers

CARE Ratings Limited (CareEdge Ratings) has assigned rating of "CARE AA-; Stable" to proposed long-term instrument of A. K. Capital Finance Limited (AKCFL) while reaffirming ratings assigned to existing bank facilities and debt instruments.

Ratings continue to factor in extensive experience of the promoter and management, comfortable capital profile, adequate liquidity levels, and healthy asset quality of the assets under management (AUM) over the years. The A. K. Capital Group has a proven track record and an established presence in debt capital markets through the parent entity, A. K. Capital Services Limited (AKCSL; which holds 95.12% shareholding in AKCFL), a Securities and Exchange Board of India (SEBI)-registered Category-I merchant banker, having a strong institutional and retail client base.

However, ratings remain constrained by volatility in earnings profile due to dependence on debt capital markets, moderate scale of operations, increasing competition in the merchant banking space, and high borrower concentration risk.

CARE Ratings Limited (CareEdge Ratings) has withdrawn the rating assigned to the non-convertible debenture (NCD) bearing ISIN INE197P07367, with immediate effect, as the company has repaid the aforementioned NCD issue in full and there is no outstanding under the facilities as on date.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors: Factors that could, individually or collectively, lead to positive rating action/upgrade:

- Significant increase in scale of operations, while maintaining sound asset quality and capitalisation buffers.

Negative factors: Factors that could, individually or collectively, lead to negative rating action/downgrade:

- Increase in leverage, with overall gearing beyond 4x on a sustained basis.
- Deterioration in profitability, with return on total assets (ROTA), declining below 1.75% on a sustained basis.
- Deterioration in the liquidity profile, with the company not maintaining 45 days of principal term debt repayment obligations and commercial paper (CP) redemptions as unleveraged liquid assets[3].
- Deterioration in credit profile of the AUM viz. increase in exposure to 'BBB' and below category or unrated exposures over 30%.

Analytical approach: Standalone

CARE Ratings Limited (CareEdge Ratings) has considered AKCFL's standalone financial risk profile and business and operational synergies, shared brand linkage, and expected support from its parent entity, AKCSL.

Outlook: Stable

Stable outlook reflects CareEdge Rating's expectation that the company would continue maintaining comfortable capitalisation levels and healthy asset quality while growing its business in the near-to-medium term.

[1]SEBI: Securities and Exchange Board of India; RBI: Reserve Bank of India; MCA: Ministry of Corporate Affairs; IRDAI: Insurance Regulatory and Development Authority of India; PFRDA: Pension Fund Regulatory and Development Authority

[2]Complete definitions of the ratings assigned are available at www.careratings.com and in other CARE Ratings Limited's publications.

[3]Unleveraged liquid assets = Government Securities, Government backed securities, Treps Lending, Cash & Bank Balance, Lien free Fixed Deposits, Liquid Mutual Funds, AAA Rated Securities/Short Term Instruments issued by such issuers, PSU Securities having rating of AA/Short Term instruments issued by such issuers.

Detailed description of key rating drivers

Key strengths

Track record of the group in debt market and promoter experience
The A. K. Capital group has a proven track record and an established presence in debt capital markets through the parent entity, AKCSL (which holds 95.12% shareholding in AKCFL as on June 30, 2026), a SEBI-registered Category-I merchant banker having a strong institutional and retail client base.

On a cumulative basis (for the last 12 years), the group managed 2,076 assignments till March 31, 2026, aggregating to ~₹25.50 lakh crore (Source: Prime Database). Within private debt placement segment, in FY26 (April 01 to March 31), the group managed 145 assignments (excluding InvITs and ReITs) aggregating to ₹2,41,009 crore with a market share of 34.10%, compared to 213 assignments aggregating to ₹3,85,639 crore with a market share of 46% in FY25. The market share moderated in FY26, because the management was focusing on margins against volumes.

Being a subsidiary of AKCSL, the company benefits from business and operational synergies in the form of strong market position and access to institutional client base and shared brand linkages.

The management team is headed by A. K. Mittal, Managing Director and Chief Executive Officer (CEO), who is a first-generation entrepreneur and promoter of the A. K. group, with over three decades of experience in the financial services sector. The company has an experienced top and middle-level management team, having been associated with the group for a long tenure.

Comfortable capitalisation levels
The company is comfortably capitalised and had a tangible net worth (TNW) of ₹1017 crore as on June 30, 2026 (March 31, 2026: ₹1000 crore and March 31, 2025: ₹817 crore; standalone). Capital adequacy ratio (CAR) stood at 31.37% (March 31, 2026: 35.63% and March 31, 2025: 31.64%) and Tier-I CAR of 31.26% (March 31, 2026: 35.50% and March 31, 2025: 31.52%), with overall gearing (debt/TNW) at 2.51x as on March 31, 2026 (March 31, 2025: 2.81x) improved, considering the capital infusion of ₹142.50 crore from the promoter group in March 2026 and further stood at 2.55x as on June 30, 2026.

While the company's standalone capital structure is comfortable, its gearing levels are volatile depending on debt placement volumes, investor appetite, and turnover of debt securities. However, the company has demonstrated track record of maintaining sub 3x gearing levels at all times.

Healthy asset quality
AKCFL's AUM consists of lending book and treasury assets, comprising 63% and 37% of the AUM as on June 30, 2026, respectively. Lending book comprises term loans and instruments (NCDs and pass-through certificates [PTCs]) extended to companies in the banking and financial services segment, including non-banking financial companies (NBFCs) that are typically rated investment grade and above. The treasury book includes government securities (G-Sec) plus highly rated papers that are more liquid and have relatively lower risk.

The company maintained healthy asset quality with negligible gross non-performing assets (GNPAs) in the last five years and GNPAs remained nil as on June 30, 2026. As on June 30, 2026, ~74% of AUM was in G-Sec and 'A' category and above-rated papers (March 31, 2026: 74% and March 31, 2025: 82%). AKCFL has sound risk management practices and has benefitted from the group's experience in the debt market in the assessment of credit quality of borrowers, which helped it maintain good asset quality over the years. The company follows a comprehensive credit appraisal process involving business verification, covenant monitoring, and funding/collection operations.

Sectorally, AUM is distributed across segments with NBFCs having highest share at 72.34% as on June 30, 2026 (FY26: 67.20% and FY25: 55.10%), followed by G-sec/Treasury bill (T-bill)/State Development Loans (SDLs) at 13.29% (FY26: 21.10% and FY25: 25.07%), public financial institutions at 5.77% (FY26: 4.53% and FY25: 7.64%), banks at 5.16% (FY26: 3.91% and FY25: 2.21%), and others at 3.44% (FY26: 3.26% and FY25: 9.98%).

While the company has demonstrated ability to maintain asset quality, going forward, its exposure to lower rated category portfolio and associated asset quality will continue to remain monitorable.

Diversified resource profile
AKCFL has a diversified resource base and has borrowings in form of NCDs, term loans, cash credit (CC), and line of credit facilities from banks or financial institutions (FIs) and Triparty Repo Dealing and Settlement (TREPS; earlier known as collateralised borrowings and lending obligation [CBLO]) borrowings.

Of total borrowings of ₹2,597 crore as on June 30, 2026, 42% is funded by loans from banks and financial institutions, 34% by NCDs, and balance 24% by TREPS/ repo borrowings. The company primarily utilises long-term borrowings to fund the lending book comprising long-term advances and investments while working capital limits and TREPS/repo borrowings are predominantly used to fund treasury activities.

Key weaknesses

Volatility in revenue and profitability
AKCFL's earnings and business profile depends on syndicated volumes in the debt capital market and fair value changes in investments portfolio. AKCFL tweaks its lending and investment book mix depending on the yields/opportunities in debt market.

AKCFL follows prudent risk management practices, where in times of uncertainty, it reduces its loan book exposure and increases proportion of investment, which however exposes it to volatility in revenue profile. Treasury assets are subject to frequent turnover due to ongoing down selling and reinvestment activities, leading to income volatility influenced by debt market transaction volumes and interest rate fluctuations. The company's income from dealing in treasury assets (incl. unrealised fair value gains) stood at ₹36.20 crore for FY26 (PY: ₹62.09 crore), translating to 10% of total income (Q1FY27: 14%, FY25: 19%), while contribution of interest income remained predominant at 74% (Q1FY27: 78%, FY25: 75%) and other income including debt syndication and fees comprised 16% (Q1FY27: 8%, FY25: 6%).

The company's overall profitability slightly moderated in FY26, compared to the preceding year due to volatility in trading income considering uncertainties in external factors. However, the company's core margins[4] (including fees from syndication) increased to 5.50% in FY26 and 6.06% in Q1FY27 (annualised) (FY25: 5.27%; FY24: 6.01%). The company's operating expenses to average assets slightly increased to 2.55% in FY26 compared to 2.48% in FY25, primarily considering increase in employee costs due to higher incentives and bonus payouts. As a result, ROTA moderated slightly to 2.19% in FY26 compared to 2.25% in FY25. The annualized ROTA has improved to 2.46% in Q1FY27, aided by higher margins due to lower gearing on account of capital infusion and controlled operating expense ratio.

Going forward, AKCFL plans to maintain an even mix between the lending and treasury book, subject to movement in interest rates. The company intends to maintain major part of the lending by way of investments in securities, which provide the flexibility to sell down.

High exposure to corporate segments with relatively higher borrower concentration
AKCFL takes exposure through the lending book, where it lends by way of loans and investments in debt securities. It has a treasury book, which invests in G-Secs and high-rated securities, and provides the company flexibility to sell down and has helped it maintain good asset quality. However, due to nature of its exposures, AKCFL remains vulnerable to a high concentration in exposure as it focuses on large ticket-size corporate lending to mainly financial services entities. Despite this, exposures are expected to remain below the Reserve Bank of India (RBI) threshold limits, such as single borrower and group level exposure of 25% and 40% of the net worth, respectively. In FY26, the product mix tilted toward high yield portfolio in the 'A' and 'BBB' rated category. Given its sizeable exposures, slippages in its portfolio will require higher provisioning, which may impact its profitability.

The company's standalone top 10 exposures (excluding G-sec) constituted 29% of total AUM (lending plus treasury book) and 98% of TNW, as on March 31, 2026 (PY: 31% of AUM and 115% of TNW). While the company's borrower risk is mitigated by its demonstrated ability to maintain asset quality, its AUM's quality and performance shall continue to remain a key rating monitorable.

Liquidity: Adequate

As of June 30, 2026, the company's asset and liability management (ALM) profile stood comfortable, with no negative cumulative mismatches in up to one-year time buckets. For the next one year, AKCFL has inflows from advances and investments amounting to ₹3,069 crore against its debt repayments of ₹1,670 crore.

[4]Net interest income + other operating income / average total assets

As on June 30, 2026, the company had undrawn credit lines from banks worth ₹115.05 crore with an average utilisation of 34% on CC limits in FY26. Liquidity is further supported by access to membership in the TREPS (Collateralised Borrowing and Lending Obligation) segment of the Clearing Corporation of India Limited (CCIL), which enables the company to borrow against G-sec/T bills/SDLs acting as a collateral.

About the company and industry

Industry classification

Macroeconomic indicator	Sector	Industry	Basic industry
Financial Services	Financial Services	Finance	Non Banking Financial Company (NBFC)

Formerly known as Girdhar Vanijya Private Limited, AKCFL was acquired by AKCSL in September 2008, and AKCSL holds 95.12% of equity as on June 30, 2026.

A subsidiary of AKCSL (rated 'CARE A1+'), AKCFL is non-deposit-taking systematically important NBFC (NBFC-ND-SI) registered with the RBI, operating in onward lending, having a sector agnostic approach, and operations in the debt market. The company is the group's flagship NBFC and offers customised debt solutions to eligible borrowers having good repute and proven track record in the industry. AKCFL has a niche business model since the company's lending book is a mix of loans and advances and other credit instruments. Of the total portfolio, ~96% is secured as on June 30, 2026 (FY26: 96%, FY25: 95%) and at least 74% of AUM (FY26: 74%, FY25: 82%) was in the form of marketable credit instruments, which can be down sold/liquidated in the market within a short span of time. AKCFL has a 100% subsidiary, Family Home Finance Private Limited (FHFPL), which is a housing finance company (HFC) registered with the National Housing Bank (NHB). The subsidiary has a small portfolio as on March 31, 2026, at ~₹68 crore. The management will continue to support its HFC per its business requirements.

About us:

Established in 1993, CareEdge Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the Reserve Bank of India. With an equitable position in the Indian capital market, CareEdge Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CareEdge Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CareEdge Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit. Disclaimer:

This disclaimer pertains to the ratings issued and content published by CARE Ratings Limited ("CareEdge Ratings"). Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. Any opinions expressed herein are in good faith and are subject to change without notice. The rating reflects the opinions as on the date of the rating. A rating does not convey suitability or price for the investor. The rating agency does not conduct an audit on the rated entity or an independent verification of any information it receives and/or relies on for the rating exercise. CareEdge Ratings has based its ratings/outlook on the information obtained from reliable and credible sources. CareEdge Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. The users of the rating should rely on their own judgment and may take professional advice while using the rating in any way. CareEdge Ratings shall not be liable for any losses that user may incur or any financial liability whatsoever to the user of the rating. The use or access of the rating does not create a client relationship between CareEdge Ratings and the user.

CAREEDGE RATINGS DISCLAIMS WARRANTY OF ANY KIND, EXPRESS, IMPLIED OR OTHER WARRANTIES OR CONDITIONS, TO THE EXTENT PERMITTED BY APPLICABLE LAWS, INCLUDING WARRANTIES OF MERCHANTABILITY, ACCURACY, COMPLETENESS, ERROR-FREE, NON-INFRINGEMENT, NON-INTERRUPTION, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE OR INTENDED USAGE.

Most entities whose bank facilities/instruments are rated by CareEdge Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CareEdge Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. CareEdge Ratings does not act as a fiduciary by providing the rating. The ratings are intended for use only within the jurisdiction of India. The ratings of CareEdge Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades. CareEdge Ratings has established policies and procedures as required under applicable laws and regulations which are available on its website.
