QUICKLY.

RBI clears Pratap Singh as Fino Payments MD & CEO

Mumbai: RBI has approved the appointment of Pratap Singh as the MD & CEO of Fino Payments Bank (FPB) for three years with effect from November 27, 2026, or the date of taking his charge, whichever is earlier. Singh, who has over 29 years of experience across India and the UK, with a career spanning retail banking, SME banking, liabilities, digital transformation, branch-led profitability and operating model redesign, has been associated with financial institutions such as ICICI Bank, ICICI Bank UK and SBI UK, among others, FPB said in a regulatory filing. OUR BUREAU

Forex reserves jump $2.5 b to $719.54 b: RBI data

Mumbai: The country's forex reserves increased by $2.49 billion to $719.547 billion during the week ended November 6, according to the RBI data released on Friday. In the previous week, the forex reserves had dropped by $2.691 billion to $717.056 billion. During the week ended November 6, foreign currency assets, a major component of reserves, increased by $232 million to $591.350 billion, according to the data released by the Reserve Bank of India. PTI

G-Sec yields harden as Oct inflation breaches 6% mark

DOUBLE WHAMMY. Rupee weakens amid higher crude oil prices and strong dollar

Our Bureau
Mumbai

The yield of government securities (G-Secs) hardened on Friday, tracking rising US Treasury yields, amid the October 2026 retail inflation reading breaching the Monetary Policy Committee's upper tolerance level of 6 per cent.

Yield of the benchmark 10-year G-sec (6.94 per cent GS 2036) is currently closed at 7.31 per cent against previous close of 7.25 per cent, up 6 basis points.

With the retail inflation perking up beyond 6 per cent (to 6.09 per cent), market players expect the RBI's rate-setting panel to up the policy repo rate by 25 basis points to 5.75 per cent from the current 5.50 per cent. The panel had raised the repo rate by 25 bps from 5.25 per cent 5.50 per cent on October 7.

SUBSIDY IMPACT

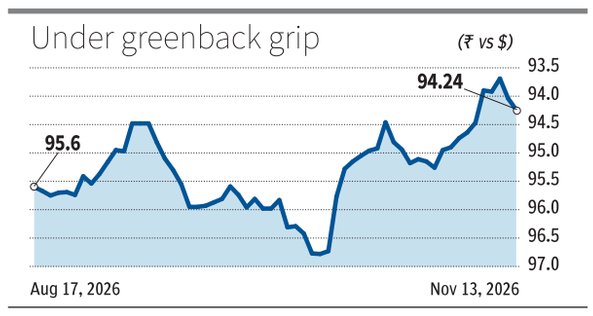

The players are also watchful about the fiscal impact of the higher fertilizer subsidy announced by the government for the October-March crop (Rabi) season. The auction of the benchmark 10-year G-Sec sailed through, with the cut-off yield coming in higher at 7.3203 per cent, a shade higher than the prevailing secondary market yield.

This indicates that bidders demanded higher yield (wanted to buy the paper at a lower price). Bond yields and prices are inversely co-related and move in opposite directions.

The government borrowed ₹34,000 crore via the auction. The auction cut-off yield at today's auction, however, was about 8 basis lower than the last auction, conducted on October 16.

SBI Capital Markets, in a report, said: "Our study shows that yields broadly mimic the path of rates, which in the FIT (Flexible Inflation Targeting) regime, have followed movements in inflation and its expectations."

"Beyond inflation, real rate in India remains broadly stable unlike the developed world, where it is rising. Accordingly, since projected inflation peaks in Q3FY27, the high points of benchmark yield belong to H2FY27, after which bond yield could moderate."

RUPEE DOWN

Meanwhile, the rupee weakened for the second day on the trot, weighed down by rising crude oil prices and a strengthening dollar.

The Indian currency closed at 94.24 per US dollar against the previous close of 94.04.

Rajeev Sharan, Head of Research, Brickwork Ratings, said: "Two things are pulling against the currency's recent strength. Brent has rebounded to around $95.50 after reported attacks on Saudi oil facilities and fading hopes of a US-Iran deal, reviving the import-bill worry that had just eased."

"And October inflation breached the RBI's 6 per cent ceiling at 6.09 per cent, raising the odds of a December rate move."

He said that the inflation print is a double-edged sword for the rupee: It signals cost pressure, but a December hike would also widen India's already sizeable rate advantage over the US and support the currency's carry appeal.

Sharan said: "Strong foreign inflows ... remain a genuine cushion. The near-term swing factor is oil: If Brent climbs back, the rupee's recovery stalls; if it resumes falling, 94 holds."

TB deaths in India fall 38% since 2015, faster than global decline: WHO report

Ankita Upadhyay
New Delhi

India has reduced tuberculosis (TB) deaths by 38 per cent since 2015, faster than the global decline of 35 per cent, according to the World Health Organization's Global Tuberculosis Report 2026, released on Thursday.

The country's estimated TB mortality fell from 28 deaths per lakh population in 2015 to 18 per lakh in 2025. The government also reported a treatment success rate of 94 per cent among patients with drug-susceptible TB.

The figures point to progress in India's fight against the disease, with the government attributing the decline to wider screening, quicker diagnosis, better access to treatment and nutritional support for patients. But what has changed in India's TB programme, and what has contributed to the decline?

TB DETECTION

A major part of the government's strategy has been to screen more people, particularly those at higher risk of developing the disease.

Under the TB Mukt Bharat Abhiyaan, the government launched a 100-day screening campaign on December 7, 2024, covering 347 high-priority districts across 33 States and Union Territories. The campaign was later expanded nationwide.

A second phase began on March 24, 2026, targeting 1.58 lakh high-risk villages and urban wards, along with vulnerable populations and people living in congregate settings.

Between December 7, 2024, and November 8, 2026, more than 25 crore people were screened. This included over 11 crore chest X-rays and more than three crore nucleic acid amplification tests (NAAT), which are molecular tests used to detect TB. The campaign identified 48.64 lakh TB patients, including 14.97 lakh people who did not show symptoms.

The government reported treatment success rate of 94% among patients with drug-susceptible TB ISTOCK.COM

The detection of people without symptoms is significant because they may otherwise have remained undiagnosed. Identifying such cases allows patients to begin treatment earlier and helps reduce the possibility of further transmission.

ROLE OF TECHNOLOGY

The government has expanded the use of portable digital X-ray machines equipped with artificial intelligence (AI) to identify people who may have TB.

Molecular diagnostic tests have also been made more widely available to help confirm infections and reduce delays in diagnosis.

AI tools are being used to identify areas with a high burden of TB and patients who may be at greater risk of poor treatment outcomes. The programme has also introduced Khushi, an AI-powered chatbot and videobot.

The government's Nikshay digital platform is being used to track patients, monitor their treatment and improve continuity of care.

NUTRITION SUPPORT

TB treatment does not end with providing medicines. Poor nutrition can affect a patient's recovery, making nutritional assistance an important part of the programme. Under the Ni-kshay Poshan Yojana, patients receive financial assistance for nutrition during treatment.

The Ni-kshay Mitra initiative allows individuals, organisations and institutions to support TB patients with nutritional and psychosocial assistance.

The programme has also started integrating TB screening with the identification and management of other conditions, including diabetes and under-nutrition, which can affect patients' health and recovery.

The government has described its TB campaign as a Jan Andolan, or people's movement, involving local bodies, elected representatives, civil society organisations, private healthcare providers and community leaders. It has also introduced JOSH Teams at the block and ward levels to encourage young people to participate in the campaign. Each team is led by a designated Class-I officer and includes five NCC cadets and five MY Bharat volunteers.

The government said 67,933 panchayats were declared TB-free in 2025.

It also said that 96 per cent of the funding requirements of the National TB Elimination Programme are being met through domestic resources.

ELIMINATING TB

India has made progress in reducing TB deaths, but the government is still working towards its goal of a TB-free country.

A nationally representative TB prevalence survey was conducted in 2025 by the Indian Council of Medical Research's National Institute for Research in Tuberculosis. The findings have been shared with the WHO and are currently under technical discussion. The WHO is expected to publish an updated country profile after this process.

The survey is expected to provide a clearer picture of the country's TB burden.

The government has said it will continue to expand screening, improve access to diagnostic facilities, provide preventive treatment and nutritional assistance, and involve communities in identifying and supporting patients.

Shriram Properties Q2 profit surges 151% to ₹21 crore on sales growth

Our Bureau
Bengaluru

Real estate developer Shriram Properties reported a 151 per cent year-on-year increase in net profit to ₹21.6 crore for the second quarter of FY27, while revenue rose 18 per cent to ₹272.3 crore.

Sales stood at ₹583 crore, up 20 per cent sequentially, while gross collections increased 11 per cent y-o-y to ₹431 crore. The company handed over 760 units during the quarter, up 10 per cent sequentially, taking total handovers in H1 FY27 to 1,450 units. During the quarter, the company acquired its partners' interests in five joint ventures, converting them into wholly-owned subsidiaries.

COMPANY AIM

Projects including Shriram 107 South East, Shriram WYT Field and Shriram 122 West are now fully owned by the company.

The move gives it greater control over project execution and decision making, while allowing it to fully reflect the projects' scale in its consolidated financials.

Net debt increased to ₹761 crore, largely due to the consolidation of around ₹300 crore in debt from the acquired joint ventures. Consequently, the net debt-to-equity ratio rose to 0.5x.

The company expects the ratio to return to historical levels over the next 12-18 months. It is at an advanced stage of closing deals for several projects with an aggregate development potential of around 9 million sq ft (msf) across Bengaluru, Chennai and Pune.

The company aims to double the size of its upcoming project portfolio over the next 12-18 months.

It is also exploring entry into newer markets and plans to accelerate the monetisation of its 105-acre land bank in Kolkata over the next three to five years.

The company plans to leverage the success of its recently-launched products in the micro market to unlock value from the land.

Commenting on the performance, Murali M, CMD of Shriram Properties, said, "Q2 FY27 was a strong quarter, marked by a solid recovery and sustained earnings momentum. A robust launch pipeline and accelerated H2 handovers give us confidence in the growth ahead."

"We will drive development-led monetisation in Kolkata, accelerate launches across our core markets, and explore entry into newer markets to create lasting value for our stakeholders," he added.

Bank credit growth rises 19.26%, deposits up 16.76%, says RBI

Press Trust of India
Mumbai

Bank credit growth accelerated to 19.26 per cent year-on-year in the fortnight ended October 31 from 17.94 per cent in the previous fortnight, the Reserve Bank of India said on Friday.

The sharp surge in credit growth reflects the demand for loans before the festive season, especially Deepavali.

Bank credit grew to ₹237.03 lakh crore as of October 31, 2026, from ₹198.76 lakh crore as of October 31, 2025, RBI data showed.

Deposit growth edged up marginally to 16.76 per cent as of October 31, 2026. Bank deposits had grown 16.6 per cent year-on-year in the fortnight ended October 15.

As of October 31, bank deposits stood at ₹288.16 lakh crore against ₹249.79 lakh crore. Further, investments by the banks in Central and State G-Secs rose 9.36 per cent year-on-year to ₹77.19 lakh crore as of October 31, 2026, from ₹70.58 lakh crore till October 31, 2025.

NOTES:

1) The above is an extract of the detailed format of Quarterly Financial Results filed with the Stock Exchanges under Regulation 33 of the SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015. The full format of the Quarterly Financial results are available on the Websites of the Stock Exchanges and on the Company's Website (www.rubfila.com).
2) The above unaudited standalone and consolidated financial results have been prepared in accordance with the recognition and measurement principles of Indian Accounting Standard 34 'Interim Financial Reporting' ('Ind AS 34') prescribed under section 133 of the Companies Act, 2013 read with relevant rules issued thereunder, and in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended).
3) The above unaudited standalone and consolidated financial results for the quarter and half year ended 30th September 2026 were reviewed by the Audit Committee and approved by the Board of Directors and taken on record at their respective meetings held on 12th November 2026. The Statutory Auditors have carried out a limited review of these results and have issued a modified Opinion.
4) The consolidated financial results include the results of the Holding Company, Rubfila International Limited & its Subsidiary (wholly owned), Premier Tissues India Limited.
5) Based on the "management approach" as defined in Ind AS 108 - Operating Segments, the Chief Operating Decision Maker evaluates performance and allocates resources based on an analysis of various performance indicators by business segments. Accordingly, the Company's reportable business segments are "Latex Rubber Thread" and "Corrugated Carton Box", and its subsidiary has one reportable business segment viz. "Paper Tissue". The Company publishes the standalone financial results along with the consolidated financial results.
6) The shareholders at the Annual General Meeting held on 29 September 2026 approved a final dividend of Rs. 2.00 per equity share of Rs. 5.00 each for the financial year 2025-26, amounting to Rs. 1,085.35 Lacs (including taxes), which has been accounted for during the quarter ended 30th September 2026.
7) On November 21, 2025, the Government of India notified the four Labour Codes - the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020 and the Occupational Safety, Health and Working Conditions Code, 2020 - replacing 29 existing labour laws, collectively referred to as the 'New Labour Codes'. The Central Government has since notified the Central Rules under the New Labour Codes, while the corresponding rules of the State Governments are awaited. The Group has assessed the incremental financial impact of these changes, taking into consideration the best information available read with the rules notified and the FAQs released by the Ministry of Labour & Employment and the Institute of Chartered Accountants of India, and the impact is not material. Accordingly, no incremental charge has been recognised in the standalone and consolidated financial results for the quarter and half year ended 30th September 2026. The Group continues to monitor developments, including notification of the State Rules and further clarifications from the authorities, and will assess the accounting implications as and when such developments occur.
8) The number of investor complaints pending at the beginning of the quarter was nil, no complaints were received during the quarter and no complaints were pending at the end of the quarter.
