Borrowing Programme: The rated instrument may involve issuance of different instruments such as debt securities (listed or otherwise), bank loans, and commercial paper (listed or otherwise), among others. The regulator of the instrument may accordingly be Securities and Exchange Board of India (SEBI), Reserve Bank of India (RBI) or Ministry of Corporate Affairs (MCA) and can only be determined upon issuance. In the press releases subsequent to issuance(s), CARE Ratings Limited (CareEdge Ratings) shall separately capture rated quantum details and names of respective regulators.

Rationale and key rating drivers

CARE Ratings Limited (CareEdge Ratings) has assessed the consolidated profile of Power Finance Corporation (PFC), considering the ongoing merger process of PFC and REC limited (REC; rated 'CARE AAA; Stable/CARE A1+').

Reaffirmation of ratings to debt instruments of Power Finance Corporation Limited (PFC) considers its healthy profitability, adequate capitalisation profile, and improving asset quality metrics. Ratings continue to draw comfort from the company's strategic importance to the Government of India (GoI) for development of power infrastructure in the country, and its quasi-sovereign status that allows it to mobilise resources from diversified channels at competitive borrowing rates.

Ratings for the perpetual debt instrument (PDI) factor in PFC's healthy capital adequacy ratio (CAR) of 23.35% as on June 30, 2026 (23.44% as on March 31, 2025), which is comfortably above the regulatory requirement of 15%. Ratings for perpetual debt

instruments (PDI) also factors in its healthy profitability with return on average total assets (ROTA) of 2.9% in Q1FY27 and 3.2% in FY26 on a consolidated basis.

PFC's sector level exposure remains concentrated towards power sector, given its mandate, with significant exposure to state power utilities (SPUs) having weak financial profile and risks associated with its exposure to private sector. CareEdge Ratings notes that PFC has started lending towards non-power infrastructure segment, however, the share of that segment remains small.

CareEdge Ratings notes that REC, a subsidiary of PFC, is in the process of being merged with PFC. Both entities will continue to operate independently until the merger is consummated, subject to receipt of the requisite regulatory and statutory approvals. Draft merger proposal has been approved by the Board of Directors of both companies and submitted to the relevant regulatory authorities, whose approvals are awaited. Under the proposed share-swap arrangement, REC shareholders will receive 88 equity shares of PFC for every 100 equity shares of REC held. CareEdge Ratings will continue to monitor the progress of the merger and will take appropriate action as may be required.

Simultaneously, CareEdge Ratings has withdrawn outstanding ratings of 'CARE AAA; Stable' assigned to the non-convertible debenture bearing ISIN INE134E08IE1, INE134E08II2, INE134E08IK8, INE134E08IL6, INE134E07AI1, INE134E07AJ9, INE134E08LG0, INE134E08LK2, INE134E08MK0, INE134E08LP1, INE134E08LS5, INE134E08LU1, INE134E08MC7, INE134E08ML8, INE134E08MO2, INE134E08MS3, INE134E08MT1, INE134E07CG1, INE134E07CF3, INE134E08NQ5 with immediate effect due to redemption. This action has been taken on the basis of 'No Due Certificate' received from the debenture trustee.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors

- Not applicable

Negative factors

- Dilution in GoI shareholding pattern and/or in GoI support.
- Significant deterioration in asset quality profile.
- Material weakening in capitalisation profile.

Negative factors (additional) for the perpetual debt

- Deteriorating capitalisation levels, with cushion over the regulatory benchmark remaining below 5%.
- Weakening profitability levels, with ROTA remaining below 1% on a sustained basis.

Analytical approach: Consolidated

CareEdge Ratings rates PFC on its consolidated profile given the ongoing process of merging PFC and REC. Ratings factor in its sovereign ownership and its strategic importance to GoI. List of companies consolidated is given under Annexure 5.

Outlook: Stable

Stable outlook on long-term ratings of PFC reflects CareEdge Ratings' expectation that PFC will continue to remain a strategically important entity to the GoI and will continue to play an important role in development of the power sector.

Detailed description of key rating drivers

Key strengths

Strategic importance to and strong support from GoI

PFC was wholly owned by the GoI till 2007. In 2007, the company launched its initial public offer (IPO) and hence, the GoI's stake in the company reduced to 90% as on March 31, 2007. The GoI's stake stood at 55.99% as on June 30, 2026. PFC enjoys patronage from and support of the GoI because of the pivotal role that PFC plays in financing power projects for the state and private sectors, being instrumental in strengthening the power infrastructure of the country. PFC and REC continue to be a strategically important entities for GoI, as they are nodal agencies for GoI schemes, such as the Revamped Distribution Sector Scheme and Ultra Mega Power Projects. The scheme's implementation period was five years (FY22 to FY26) and has been

extended till FY28 with outlay of ₹3,03,758 crore with an estimated gross budgetary support of ₹97,631 crore from the GoI. PFC and REC are advised by the Ministry of Power (MoP) to extend their support to distribution companies (discoms) for timely payments of their dues under the Late Payment Surcharge and Related Matters Rules, 2022 (LPS Rules 2022). Loans under LPS are entirely guaranteed by the state government and are to be repaid by discoms to suppliers in 1-4 years, depending on quantum of loans. MoP initiated a tariff-based competitive bidding process for developing and strengthening transmission system through private sector participation. PFC Consulting Limited, a wholly owned subsidiary of PFC, has been nominated as a bid process coordinator by MoP, GoI, for development of independent transmission projects. CareEdge Ratings notes the company's strategic importance to GoI for developing power infrastructure in India and expects it to continue in future.

Significant market player in the power financing sector

PFC's loan book has grown in recent financial years mainly considering disbursements through LPS and Revolving Bill Payment Facility (RBPF). With inception of LPS and RBPF in FY22, picking up the momentum from FY23 - FY25, the company's consolidated loan book grew by ~5% year-over-year (y-o-y) in FY26 reaching a loan book of ₹1,163,768 crore. The growth in FY26 and Q1FY27 for loan book and disbursement remained subdued owning to recent rate cuts by RBI due to which the company had experienced high prepayment during the period.

As on June 30, 2026, on a standalone basis, share of loans towards transmission and distribution was 41%, followed by conventional generation at 33%, renewables energy segment at 15% and infrastructure and others at 12%. CareEdge Ratings expects share of renewable energy in total assets under management (AUM) of the company to grow in the near-to-medium term, which is also expected to dilute share of state backed loans in the near-to-medium term.

PFC forayed in lending to the infrastructure sector. PFC can lend up to a ceiling of 15% (or as amended from time to time) of the company's outstanding loan book to logistics and non-power infrastructure sectors. In each financial year, 75% (or as amended from time to time) of sanctions should be for Power & Green Energy Projects only. The company's infrastructure loan book is at nascent stage, forming 9% of loan book as on June 30, 2026. PFC's ability to diversify sectors, while keeping its asset quality strong is a key monitorable aspect, as infrastructure lending is a new venture for the company. With rising share of loans towards renewable energy (RE) sector, which are predominantly in private sector, the share of overall loans to private sector remains high at 23% as on June 30, 2026. Going forward, CareEdge Ratings expects the growth momentum to continue the same trajectory with share of private sector exposure rising gradually.

Diversified resource base

As a quasi-sovereign financial institution (FI), PFC is able to manage a well-diversified resource profile and can mobilise funds at cost effective rates from sources such as external commercial borrowings, international agencies, domestic FIs, long-term bonds, bank loans, commercial paper, capital gains tax exemption bonds, infrastructure bonds, and tax-free bonds. As on June 30, 2026, PFC's standalone borrowings stood at ₹475,462 crore against ₹488,516 crore as on March 31, 2026, a modest decrease of 2%. As on June 30, 2026, majority borrowings come from domestic bonds with 56% (56% as on March 31, 2026), followed by rupee term loan from banks with 19% (19% as on March 31, 2026), foreign currency borrowings with 21% (20% as on March 31, 2026), 54EC bonds with 2% (2% as on March 31, 2026), subordinate liabilities with 1% (1% as on March 31, 2026) and balance by cash credit (CC)/ overdraft (OD)/ line of credit/ commercial paper. As on June 30, 2026, PFC's 97%(standalone) and 98% (consolidated) of foreign currency portfolio was hedged mitigating effect of near-term foreign currency fluctuations on PFCs profitability.

Healthy profitability

In FY26, PFC reported a consolidated profit after tax (PAT) of ₹ 33,625 crore, up by ~10% (annualised basis) against ₹30,514 crore as on March 31, 2025. On a standalone basis, in FY26, PFC reported PAT of ₹20,051 crore, up by ~16% y-o-y. In Q1FY27, it reported standalone PAT of ₹4,745 crore and ₹8,998 crore on a consolidated basis. On a standalone basis, PFC's healthy yield on its advances and its ability to minimise its cost of funds being a quasi-sovereign entity has led to improvement in net income margins (NIMs) improving from 3.6% in FY25 to 3.7% in FY26, but further marginally reduced to 3.4% in Q1FY27. With recoveries received from the non-performing assets (NPA) and contained slippages in FY26, credit cost ratio improved to negative 0.31% in FY26 against 0.08% as FY25 and further to a negative 0.36% in Q1FY27. On consolidated basis, the profitability for the company continued to be robust with ROTA of 2.8% in FY26, largely driven by improved NIMs and controlled credit cost. In Q1FY27, ROTA stood at 2.9% (annualised) driven by negative credit cost. Going forward, CareEdge Ratings expects profitability to remain healthy with the company expecting the recoveries against few of the accounts in NPAs.

Improving asset quality metrics

PFC's asset quality has been improving trend over the years. Owing to resolution through National Company Law Tribunal (NCLT), write backs and write-offs, the company reported reduction in its consolidated gross NPA (GNPA) ratio to 0.66% as on March 31, 2026 and June 30, 2026, against 1.64% as on March 31, 2025. Having suffered asset quality issues in the past with GNPA of ~5.02% as on March 31, 2022, PFC's asset quality has improved multi-fold in recent financial years. On a standalone basis, the company is maintaining healthy provision coverage ratio (PCR) of ~86% under NCLT on its stage III assets as on June 30, 2026. However, with total PCR of ~1.7% as on June 30, 2026, and lumpy exposure to power sector companies, slippages from stage II may lead to significant deterioration in asset quality.

Adequate capital position

PFC's consolidated gearing level has been improving owing to rise in internal accruals. Gearing improved to 6.08x as on March 31, 2026, from 6.53x as on March 31, 2025, and has further improved to 5.51x as on June 30, 2026. PFC has been maintaining capitalisation above regulatory benchmark for CAR and Tier-I capital. CAR for the company stood at to 23.35% (standalone) as on June 30, 2026, providing sufficient room for further growth without substantial equity raise.

Key weaknesses

Sectoral concentration of operations and high borrower-wise concentration

Owing to its mandate, PFC's operation was concentrated towards power sector. With the company foraying in infrastructure sector with ₹50,742 crore making ~9% gross loan as on June 30, 2026, the diversification of the sector was initiated by PFC. Although, the maximum exposure limit is always restricted to 30% of outstanding loan, subject to two-third new sanctions in a financial year towards power sector. Its ability to diversify sectors, while keeping its asset quality strong, is a key monitorable aspect, as infrastructure lending is a new venture for the company. CareEdge Ratings expects growth of Infrastructure portfolio to be moderate in the near-to-medium term. REC's operation is concentrated towards power sector, comprising 90.77% of gross loan as on March 31, 2026. With heathy sectoral demand, the share of loan in non-power sector in infrastructure sector stood at 9% as on June 30, 2026. Although maximum exposure limit is always restricted to 30% of outstanding loan, subject to two-third new sanctions in a financial year towards the power sector. Its ability to diversify sectors, while keeping asset quality strong is a key monitorable aspect, as infrastructure lending is a new venture for the company. At present, PFC and REC comply with the RBI's credit concentration norms applicable to single and group borrower exposures, which are linked to Tier-I capital. Currently, both entities operate well within the prescribed exposure limits. Post-merger, these limits will apply to the consolidated Tier-I capital of the merged entity. Given the strong net worth of both entities, breach with respect to borrower exposure norms is not foreseen. The merged entity is expected to maintain comfortable capital levels to support future lending growth.

Liquidity: Adequate

As on June 30, 2026, PFC's liquidity profile remained adequate, with cash and Liquid investment of ₹ 5,596 crore (₹8623 crore on consolidated basis) and investment of ₹21,176 crore. Per the asset liability management (ALM) statement, there are positive cumulative mismatches across all time buckets except 2-3 months period. However, the company has access to sanctioned unutilised bank line of ₹11,440 crore as on June 30, 2026. PFC's liquidity profile is expected to remain comfortable with strong financial flexibility, arising from sovereign ownership and diversified funding profile and undrawn sanctioned bank lines.

Environment, social, and governance (ESG) risks

Given that PFC is engaged in the lending business, it is exposed to environmental risks indirectly through its portfolio of assets. If entities to which PFC have exposure to faces environmental or regulatory risk, it could translate to credit risks for the company. PFC continued to be the leader in the green financing segment by significantly expanding its financing for renewable energy projects. Social risks in the form of cybersecurity threat or customer data breach can affect PFC's regulatory compliance and reputation and hence remain a key monitorable. No data breaches have been reported for PFC Limited in FY26. PFC's Board comprises 10 Directors, with five Independent Directors, one Nominee Director from the GoI. The board also includes two female Directors.

About the company and industry

Industry classification

Macroeconomic indicator	Sector	Industry	Basic industry
Financial services	Financial services	Finance	Non-banking financial company (NBFC)

PFC was set up in 1986 as a financial institution (FI) dedicated to power sector financing under the MoP. The corporation was notified as a public FI in 1990 under the Companies Act, 1956. In 2010, the RBI had classified the company as an Infrastructure Finance Company (Non-Banking Financial Company – Non-Deposit – Infrastructure Finance Company; NBFC-ND-IFC). PFC provides forex rupee term loan, short-term loans, equipment lease financing, and transitional financing services for power projects in the generation, transmission, and distribution sectors. As the company has forayed in infrastructure and logistics sectors, here, it deals with e-vehicle fleets, charging infrastructure, roads, ports, metro rail, smart cities, and other significant infrastructure projects. Its customer base comprises of central and state power utilities, power equipment manufacturers, state government departments, and developers involved in large-scale infrastructure projects. Up till December 2018, GoI was a majority shareholder in REC, holding 52.85% shares as on December 31, 2018. On March 28, 2019, PFC completed the acquisition transaction, where the stake of GoI was transferred to PFC. Post this transaction, REC became a subsidiary of PFC. As on June 30, 2026, PFC held majority stakes in REC with 52.63%.

About us:

Established in 1993, CareEdge Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the Reserve Bank of India. With an equitable position in the Indian capital market, CareEdge Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CareEdge Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CareEdge Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit. Disclaimer:

This disclaimer pertains to the ratings issued and content published by CARE Ratings Limited ("CareEdge Ratings"). Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. Any opinions expressed herein are in good faith and are subject to change without notice. The rating reflects the opinions as on the date of the rating. A rating does not convey suitability or price for the investor. The rating agency does not conduct an audit on the rated entity or an independent verification of any information it receives and/or relies on for the rating exercise. CareEdge Ratings has based its ratings/outlook on the information obtained from reliable and credible sources. CareEdge Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. The users of the rating should rely on their own judgment and may take professional advice while using the rating in any way. CareEdge Ratings shall not be liable for any losses that user may incur or any financial liability whatsoever to the user of the rating. The use or access of the rating does not create a client relationship between CareEdge Ratings and the user.

CAREEDGE RATINGS DISCLAIMS WARRANTY OF ANY KIND, EXPRESS, IMPLIED OR OTHER WARRANTIES OR CONDITIONS, TO THE EXTENT PERMITTED BY APPLICABLE LAWS, INCLUDING WARRANTIES OF MERCHANTABILITY, ACCURACY, COMPLETENESS, ERROR-FREE, NON-INFRINGEMENT, NON-INTERRUPTION, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE OR INTENDED USAGE.

Most entities whose bank facilities/instruments are rated by CareEdge Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CareEdge Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. CareEdge Ratings does not act as a fiduciary by providing the rating. The ratings are intended for use only within the jurisdiction of India. The ratings of CareEdge Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades. CareEdge Ratings has established policies and procedures as required under applicable laws and regulations which are available on its website.
