Detailed Rationale

Crisil Ratings has reaffirmed its 'Crisil AAA/Stable/Crisil A1+' ratings on the debt instruments of Axis Finance Limited (AFL).

Crisil Ratings has **withdrawn** its rating on Rs 1,840 crore non convertible debentures (NCDs) and Rs 200 crore subordinated debt as it has been repaid as on date. This is in line with the Crisil Ratings policy of withdrawal of bank loan ratings.

The rating on the perpetual bonds reflects the comfortable buffer consistently maintained by AFL over the regulatory capital adequacy requirement and financial flexibility due to Axis Bank Limited's (Axis Bank; 'Crisil AAA/Crisil AA+/Stable/Crisil A1+) ownership. AFL has maintained cushion of more than 4% over the regulatory minimum capital ratio for the past seven years and Crisil Ratings believes that it will maintain comfortable cushion (see Crisil publication *'Crisil Criteria for Rating Hybrid Instruments Issued by NBFCs/HFCs'* dated December 2016 for details on the approach for rating such instruments).

The ratings continue to reflect AFL's strategic importance to its parent, Axis Bank. The shared name and logo enhance the moral obligation of Axis Bank to support AFL. The ratings also factor in the company's comfortable asset quality and adequate earnings. These strengths are partially offset by exposure to concentration risks inherent in the moderate but declining share of wholesale lending business.

Analytical Approach

Crisil Ratings has assessed the standalone credit risk profile of AFL and continues to factor in the strong financial support from the parent, Axis Bank. Crisil Ratings believes Axis Bank will continue to support AFL, considering the strategic importance of the latter, shared brand and 94.9% shareholding as on September 30, 2026.

Key Rating Drivers - Strengths

Strong support from the parent given its strategic importance

The ratings centrally factor in the support AFL receives from Axis Bank. The company is of strategic importance to the bank. AFL has benefitted from the support from the parent in form of guidance and governance with the company's board comprising senior functional executives from Axis Bank, which ensures strong oversight.

The company also benefits from regular capital support from the bank, which has infused Rs 3,875 crore cumulatively in the past 10 years, including Rs 1,500 crore in the first quarter of fiscal 2027. In the second quarter of fiscal 2027, Kedaara Capital also infused Rs 750 crore in the company. With regular infusions and steady internal accrual, AFL's networth stood at Rs 8,972 as on September 30, 2026 (Rs 6,154 crore as on March 31, 2026). Tier 1 and overall capital adequacy ratios were comfortably above the regulatory minimum at 17.09% and 22.2%, respectively, as on September 30, 2026 (13.8% and 19.7%, respectively, as on March 31, 2026). Gearing stood at 5.1 times as on September 30, 2026, as against 6.8 times as on March 31, 2026, and is expected to remain around 7.5 times on a steady state basis. Networth coverage for net stage 3 assets stood at 34.7 times as on September 30, 2026.

Crisil Ratings believes the continuous guidance, governance and majority ownership of AFL by Axis Bank implies a strong moral obligation on the parent to support its subsidiary.

Comfortable asset quality
The asset quality of AFL remains comfortable, with gross stage 3 assets (GS3) and net stage 3 assets at 0.96% and 0.49%, respectively, as on September 30, 2026, compared with 0.94% and 0.48%, respectively, as on March 31, 2026 (0.87% and 0.44%, respectively, as on March 31, 2025). Stage 3 assets of the company increased in fiscal 2026 owing to the marginal inch up in delinquencies in housing loans and loans against property. While the company reported nil non-performing assets (NPAs) till fiscal 2018, it did see the impact of the challenging macro-economic environment, wherein net NPAs increased substantially and touched 3% as on March 31, 2020. Post that, the management has been able to bring down NPAs with strict underwriting policies & recoveries. The company has in place strong risk management and credit monitoring systems. AFL also benefits extensively from the oversight of Axis Bank on risk management. However, with decline in the share of wholesale exposure to ~29% of overall book as on September 30, 2026, AFL's ability to ensure strong collection and recovery mechanism, while keeping gross stage 3 level within controlled limit shall remain a key monitorable.

Adequate earnings profile
Earnings are supported by healthy net interest margin (NIM) and other income along with range bound credit cost. AFL reported profit after tax (PAT) of Rs 547 crore in the first half of fiscal 2027 translating to return on managed assets (RoMA) of 2.0% as against a PAT of Rs 408 crore and 1.9% RoMA during the corresponding period of fiscal 2026. Profitability improved for the same comparative period supported by increase in NIM given growth in the loan book as well as improvement in average cost of borrowing. For fiscal 2026, the company reported PAT of Rs 812 crore (RoMA of 1.8%) as against Rs 652 crore (RoMA of 1.7%) reported in fiscal 2025.

As the company was primarily engaged in wholesale lending, its operating expenditure remained low. With diversification into retail finance from fiscal 2020, expenditure related to setting up of the employee base and other infrastructure resulted in operating expenses increasing to 1.3% of average managed assets in fiscal 2023 as against 0.7% in fiscal 2019. In fiscals 2024 and 2025, operating expenses remained at 1.2%, showing signs of increasing efficiency in operations with uptick seen in fiscal 2026 as well as in the first half of fiscal 2027 at 1.4–1.5%. The rise is attributed to investments in technology and human resources for new granular retail products. Nevertheless, with the ramp-up in loan book, operating efficiency is expected to improve over the medium term. However, given the introduction of new products, it will be monitorable. Other income including fee income, direct assignment income and recovery from write off among others was reported at 0.6% in fiscal 2026 and the first half of fiscal 2027 compared with 0.4% in fiscal 2025, which also supported the overall profitability.

The company's credit cost remained at 0.8–0.9% in the first half of fiscal 2027 and fiscal 2026 and remains comfortable. The ability to limit credit costs with declining share of wholesale exposure as well as expansion into newer retail segments will be monitorable.

Key Rating Drivers - Weaknesses
Exposure to concentration risks inherent in the wholesale lending business model
The assets under management (AUM) (excluding treasury book) grew by 20% and stood at Rs 48,175 crore as on March 31, 2026 (Rs 40,142 crore as on March 31, 2025). It further increased by 13% year to date and stood at Rs 54,594 crore as on September 30, 2026. The AUM is backed by adequate collateral in the form of fixed assets and cash flow. However, with a view to further increasing the granularity in the overall book and focus on the micro, small and medium enterprises (MSME) segments, AFL launched the MSME segment in fiscal 2022 under which it offers secured loans with ticket size of Rs 1–25 crore. Retail & MSME Segments stood at ~71% as on September 2026.The management is targeting this segment as one of the growth areas for AFL over the medium term. Scalability of this business segment remains monitorable.

As part of its strategy to increase the proportion of cash flow-backed exposures, the company had reduced its exposure to real estate financing post 2020. The real estate funding book stood at Rs 4,017 crore as on September 30, 2026, constituting 7.4% of the AUM. The current AUM is well diversified across sectors (including conglomerates, logistics, steel, pharmaceuticals, cement, auto components and healthcare) and is focused on operating level companies or those adequately backed by contracted or demonstrated cash flow. Furthermore, the company has increased its focus on collateralised loans including lease rental discounting (LRD) and loan against property (LAP) to add granularity and further diversify its wholesale book.

AFL has been building up the retail portfolio over the past five years and has diversified into retail finance segments such as LAP, home loans, personal loans and business loans in fiscal 2020 to create a granular consumer lending franchise. The retail book accounted for 51.8% of the AUM as on September 30, 2026, compared to 33% as on March 31, 2022, and 17% as on March 31, 2021; the share is expected to increase further over the medium term. Recently, AFL has also diversified its portfolio with respect to varied ticket sizes to tap a larger customer base, by entering micro-LAP, low ticket housing loan, small ticket business loan and personal loan segments. Crisil Ratings believes AUM growth will remain healthy over the medium term, supported by improving geographical reach and gradual increase in product offerings.

While AFL has put in place adequate risk management systems and processes, the ability of the management to limit slippages and recover stage 3 assets will remain monitorable. The performance of retail portfolio with moderate seasoning also remains monitorable.

Liquidity Superior
As on September 30, 2026, the company had total debt obligation of ~Rs 4,036 crore till December 2026, of which Rs 1,145 crore comprises commercial paper. Against this, AFL had cash and equivalents of Rs 1560 crore and liquid investments amounting to Rs

751 crore. In addition, AFL had unutilised bank limit of Rs 5,750 crore as on same date, which supports liquidity. AFL is active in raising resources from diverse set of lenders and investors. Liquidity is also supported by the parent, Axis Bank, when required.

Outlook Stable
Crisil Ratings believes AFL will continue to benefit from the ongoing guidance and governance from Axis Bank. AFL is likely to maintain its comfortable capitalisation and adequate profitability.

In addition, the rating on the perpetual bonds remains sensitive to the capital buffer maintained by AFL over regulatory capital requirements and rating transition on these instruments could potentially be sharper than those on other debt instruments.

Rating Sensitivity factors
Downward factors
- Downward revision in the credit risk profile of Axis Bank by one notch could have a similar rating change on AFL
- Diminution in expected support from Axis Bank, because of significant decline in the bank's ownership or in strategic importance of AFL to Axis Bank.

About the Company
AFL was incorporated as Kalpataru Hire Purchase and Leasing Private Limited in 1995 and was acquired by Enam Securities in fiscal 2009 and renamed Enam Finance Private Limited. It became a wholly owned subsidiary of Axis Bank as part of Enam Securities' merger with the bank in 2012 and got its present name. The company started full-fledged operations in fiscal 2014. It is a non-deposit-taking non-banking financial company based in Mumbai, with AUM (excluding treasury) of Rs 54,594 crore as on September 30, 2026 (Rs 48,175 crore as on March 31, 2026). The company's AUM (excluding treasury) stood at Rs 54,594 crore as on September 30, 2026, vis-a-vis Rs 48,175 crore as on March 31, 2026. Its key product offerings in the wholesale segment include corporate loans, collateralised loans,lease rental discounting and real estate inventory backed financing. AFL diversified into retail segments with products such as LAP, home loans, business loans and personal loans in fiscal 2020. AUM in the retail segment stood at Rs 26,411 crore as on September 30, 2026. In fiscal 2022, AFL launched a new segment called MSME where the company offers secured loans to the MSME segment. AUM for this segment stood at Rs 10,252 crore as on September 30, 2026.

The PAT was Rs 547 crore and total income (net of interest expense) stood at Rs 1359 crore in first half of fiscal 2027, as against Rs 408 crore and Rs 1,045 crore, respectively, in the first half of fiscal 2026.

About Crisil Ratings Limited (A subsidiary of Crisil Limited, an S&P Global Company)
Crisil Ratings pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we set the standards in the credit rating business. We rate the entire range of debt instruments, such as bank loans, certificates of deposit, commercial paper, non-convertible/convertible/partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 33,000 large and mid-scale corporates and financial institutions. We have also instituted several innovations in India in the rating business, including ratings for municipal bonds, partially guaranteed instruments and infrastructure investment trusts (InvITs).

Crisil Ratings Limited ('Crisil Ratings') is a wholly-owned subsidiary of Crisil Limited ('Crisil'). Crisil Ratings Limited is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI").
