## Rationale and key rating drivers

CARE Ratings Limited (CareEdge Ratings) has reaffirmed the credit quality rating (CQR) of 'CARE AAA mfs' to Mirae Asset Ultra Short to Short Term Fund (formerly known as Mirae Asset Low Duration Fund) and Mirae Asset Money Market Fund and the rating of 'CARE A1+ mfs' to Mirae Asset Liquid Fund , Mirae Asset Overnight Fund, and Mirae Asset Ultra Short Term Fund (formerly known as Mirae Asset Ultra Short Duration Fund. These funds are managed by Mirae Asset Investment Managers (India) Private Limited.

The schemes rated 'CARE AAA mfs' are considered to have the highest degree of safety regarding the timely receipt of payments from investments that they have made.

The schemes rated 'CARE A1+ mfs' are considered to have a strong degree of safety regarding the timely receipt of payments from investments that they have made.

CareEge Ratings' fund CQR is an opinion on the overall credit quality of a debt mutual fund scheme. CareEdge Ratings' fund CQR is not a recommendation to purchase, sell, or hold a security or fund. It comments neither on the current market price, suitability for a particular investor nor on the prospective performance of the fund regarding appreciation, volatility of net asset value (NAV), or yield of the fund. Ratings do not address the fund's ability to meet the payment obligations to the investors. Ratings are not an opinion on the fund management practices (including fund structure, expense ratios, and marketing activities), financial performance, and management quality of an asset management company (AMC), and hence, do not comment on business practices. Ratings are also not indicative of compliance and reputation risks, liquidity, and market and sectoral risks.

Ratings capture the fund's overall exposure to default risk based on the credit quality of individual securities in the portfolio. CareEdge Ratings' fund CQR is based on the evaluation of the fund's investment strategy and portfolio credit risk. It also involves the evaluation of the credit quality of individual securities and the diversification of portfolios. CareEdge Ratings uses the concept of credit scores assigned to individual securities per the credit scoring matrix developed by CareEdge Ratings.

CareEdge Ratings reviews rated mutual fund schemes on an ongoing basis to support its published rating opinions. As such, the portfolios of the funds are reviewed monthly. In addition, a detailed annual review of the funds is also carried out. A fund is required to maintain a fund credit score within the benchmark fund score associated with a given rating level. If in a particular month the fund credit score breaches the benchmark, CareEdge Ratings generally provides a month to the AMC to realign the score.

The credit scores of the above schemes have been calculated based on the portfolio outstanding as on August 31, 2026, and are within the benchmark set by CareEdge Ratings.
