Rationale and key rating drivers

CARE Ratings Limited (CareEdge Ratings) has assigned long-term credit quality ratings (CQRs) to ICICI Prudential CRISIL-IBX Financial Services 3-6 Months Debt Index Fund. This fund is managed by ICICI Prudential Asset Management Company Limited.

Schemes rated 'CARE AAA mfs' are considered to have the highest degree of safety regarding timely receipt of payments from the investments that have been made.

CareEdge Ratings' fund CQR is an opinion on overall credit quality of a debt mutual fund scheme or debt exchange traded funds (ETFs). CareEdge Ratings' Fund CQR is not a recommendation to purchase, sell, or hold a security/fund. They comment neither on current market price, suitability for a particular investor, nor on prospective fund performance appreciation, net asset value (NAV) volatility, or fund yield. Ratings do not address the fund's ability to meet payment obligations to investors.

Ratings are not an opinion on fund management practices (including fund structure, expense ratios, and marketing activities), financial performance, and management quality of an asset management company (AMC), and hence do not comment on business practices. Ratings are also not indicative of compliance and reputation risks, liquidity, market, and sectoral risks.

Ratings capture the fund's overall exposure to default risk based on credit quality of individual securities in the portfolio. CareEdge Ratings' Fund CQR is based on evaluation of the fund's stated investment strategy and portfolio credit risk. It involves evaluation of credit quality of individual securities and diversification of the portfolio. CareEdge Ratings uses the concept of credit scores assigned to individual securities, per credit scoring matrix developed by it.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors: Factors that could individually or collectively lead to positive rating actions/upgrade:

- Not applicable

Negative factors: Factors that could individually or collectively lead to negative rating actions/downgrade:

- CareEdge Ratings could downgrade ratings of schemes if credit quality of underlying securities deteriorates, resulting in a breach in the threshold limit set by CareEdge Ratings for a given rating level.

Analytical approach:

Assessment of underlying credit quality of debt schemes.

Detailed description of key rating drivers:

The credit score of the rated scheme has been calculated based on portfolio outstanding as on July 31, 2026, and is within the benchmark set by CareEdge Ratings. The portfolio is monitored monthly, and a detailed annual review by CareEdge Ratings to support its published rating opinions. The fund must maintain fund credit score within the benchmark fund score associated with a given rating level. If in any particular month, the fund credit score breaches the benchmark, CareEdge Ratings generally provides a curing period of one month to the AMC to correct the situation and realign the score.

¹SEBI: Securities and Exchange Board of India; RBI: Reserve Bank of India; MCA: Ministry of Corporate Affairs; IRDAI: Insurance Regulatory and Development Authority of India; PFRDA: Pension Fund Regulatory and Development Authority
