1 crore = 10 million

Refer to Annexure for Details of Instruments & Bank Facilities

Detailed Rationale

Crisil Ratings has assigned its '**Crisil A2+**' rating to the short-term bank facility and commercial paper facilities of Finnable Credit Private Limited (Finnable).

Finnable is a non-banking financial company (NBFC) that provides unsecured personal loans to salaried individuals through a fully digital lending platform. The company leverages proprietary analytics and technology-driven underwriting to enable quick loan approvals and disbursements. Furthermore, Finnable has started offering loan against property (LAP) since June 2025, though this portfolio remains at a nascent stage.

Finnable, and its wholly owned subsidiary, Finnable Technologies Private Limited (FTPL; acting as a lending service provider (LSP) for Finnable), are together referred to as the Finnable group.

The rating reflects the comfortable capitalisation of the group, Finnable's scalable business model and experienced leadership. These strengths are partially offset by inherent vulnerability in asset quality owing to risks associated with the asset class as well as the group's modest, though improving, profitability.

As on June 30, 2026, the networth for the group stood at Rs 557 crore, strengthened by equity infusion of ~Rs 250 crore in fiscal 2026. Gearing was comfortable at 1.9 times. The group started the lending business in 2019 and has scaled up its assets under management (AUM) to Rs 3,547 crore as of March 31, 2026, compared to Rs 1,105 crore as on March 31, 2023, representing a compound annual growth rate (CAGR) of 52%.

The asset quality metrics have remained comfortable so far, with 90+ dpd (days past due; adjusted for trailing 12 months write-offs) at 2.1% as on June 30, 2026, against 2.3% as on March 31, 2026, and 2.9% as on March 31, 2025. Nevertheless, the asset quality of the portfolio continues to be vulnerable to the underlying risks inherent in unsecured personal loans.

While the group has been profitable since fiscal 2025, its earnings profile remains modest. It reported a profit after tax (PAT) of Rs 2.8 crore in fiscal 2025, which increased to Rs 45.9 crore in fiscal 2026 and then to Rs 20.9 crore in the first quarter of fiscal 2027. Return on managed assets (RoMA) for the group stood at 2.0% (annualised) for the quarter ended June 30, 2026, compared to 1.3% in fiscal 2026 and 0.1% in fiscal 2025. Sustained improvement in earnings, while maintaining asset quality amid continued portfolio growth, remains monitorable.

Analytical Approach

Crisil Ratings has considered the consolidated business and financial risk profiles of Finnable and FTPL as there are significant operational and managerial linkages between the companies.

Please refer Annexure - List of entities consolidated, which captures the list of entities considered and their analytical treatment of consolidation.

Key Rating Drivers - Strengths

Comfortable capitalisation

The group's capitalisation remains comfortable, with networth of Rs 557 crore as on June 30, 2026, against Rs 535 crore as on March 31, 2026, and Rs 225 crore as on March 31, 2025, supported by cumulative equity infusions of around Rs 525 crore since inception. The gearing was also comfortable at 1.9 times as on June 30, 2026, as against 1.5 times as on March 31, 2026, and 1.1 times as on March 31, 2025. The capital adequacy ratio remains healthy at 29.3% as on June 30, 2026. On a steady state basis, gearing is expected to remain less than 3.5 times.

Experienced promoter background

Finnable benefits from the extensive experience of its founders, Mr Nitin Gupta and Mr Amit Arora, who have over two decades of experience each across banking, analytics, risk management, and digital financial services. Mr Nitin began his career at Standard Chartered Bank across risk and analytics functions, before founding his own analytics firm, NettPositive, which served global banks, and subsequently got acquired by Equifax. Mr Amit has also held senior leadership positions at Standard Chartered Bank across retail banking, risk, and digital transformation functions. The company also has business heads who have decades of relevant work experience and should continue to benefit from such seasoned professionals.

Scalable business model

The group's business model remains highly scalable through leveraging its technology-driven underwriting capabilities and established lending partnerships. It leverages advanced data analytics and a multi-layered underwriting framework that combines traditional credit bureau information and alternate data. Benefiting from it, the group has demonstrated healthy business growth, with its AUM expanding at a healthy CAGR of ~52% between fiscals 2023 and 2026 to reach Rs 3,547 crore as on March 31, 2026. Furthermore, on June 30, 2026, the AUM increased to Rs 3,925 crore.

Of the total AUM, around 67% comprised of co-lending book, while the balance 33% was held on its own book, which increased from ~29% as on March 31, 2026, and 11% as on March 31, 2025. The group plans to further increase the proportion of own book in the overall AUM over the medium term.

The company offers unsecured personal loans and has recently started offering LAP in June 2025, which is at a nascent stage. Ability to increase its AUM, particularly on own book, while maintaining healthy asset quality metrics and profitability, remains monitorable.

Key Rating Drivers - Weaknesses

Inherent vulnerability in asset quality owing to risks associated with the asset class

Asset quality remains supported by its focus on lending to the salaried customer segment, with 84% of the AUM comprising borrowers with CIBIL score above 710. The company's asset quality metrics have remained comfortable, with 90+ dpd at 0.7% as on June 30, 2026, against 0.9% as on March 31, 2026 (1.2% as on March 31, 2025). The company writes off loans at 150+ dpd. Adjusting for trailing 12 months write-offs as well, the adjusted 90+ dpd stood at 2.1% as on June 30, 2026, compared to 2.3% as on March 31, 2026, and 2.9% as on March 31, 2025. Nonetheless, the portfolio remains susceptible to the inherent risks associated with unsecured lending. Furthermore, the company has recently started offering LAP, which is at a nascent stage. The ability to maintain asset quality metrics as the portfolio scales up will remain monitorable.

Modest, though improving, profitability

The group's profitability remains modest, albeit improving gradually, with it reporting a profit after tax (PAT) of Rs 45.9 crore in fiscal 2026 compared with Rs 2.8 crore in fiscal 2025; translating into RoMA of 1.3% in fiscal 2026 against 0.1% in fiscal 2025. Furthermore, in the first quarter of fiscal 2027, PAT and RoMA stood at Rs 20.9 crore and 2.0% (annualised), respectively. Net interest margin (NIM) on total income basis increased to 12.8% (annualised) in the first quarter of fiscal 2027, from 10.5% in fiscal 2026 and 9.6% in fiscal 2025, driven by increasing proportion of own book on the portfolio. However, profitability continued to be constrained by elevated operating expenses (as a percentage of average managed assets), which stood at 7.5% (annualised) in the first quarter of fiscal 2027 compared to 6.7% in fiscal 2026 and 7.2% in fiscal 2025. Furthermore, credit cost (as a percentage of average managed assets) has been steady at 2.2% for fiscals 2025 and 2026, with it increasing to 2.7% (annualised) for the first quarter of fiscal 2027. The company's ability to improve and sustain its profitability while growing will remain monitorable.

Liquidity Adequate

The liquidity is comfortable, with positive cumulative mismatch across all buckets as on June 30, 2026. Furthermore, as of July 31, 2026, Finnable had unencumbered cash and equivalents of around Rs 157 crore. Against this, the company had scheduled debt obligation of ~Rs 81 crore over the upcoming one month.

Rating sensitivity factors

Upward factors

- Consistent scale-up of loan book while sustaining improvement in asset quality, along with improvement in profitability, such that RoMA sustains around 2.5%
- Sustenance of healthy capitalisation metrics

Downward factors

- Any significant deterioration in asset quality metrics translating into weakening of earnings profile

About the Company

Finnable was incorporated on August 12, 2015, and is registered with the Reserve Bank of India (RBI) as a middle layer NBFC.
