Annapurna Finance Private Limited: Rating reaffirmed for PTCs issued under microfinance loan securitisation transaction

Summary of rating action

Trust name	Instrument*	Initial rated amount (Rs. crore)	Previous rated amount (Rs. crore)	Current rated amount (Rs. crore)	Rating action	Financial Sector Regulator [#]
Nimbus MFI Trust 05 2025	Series A1 PTCs	113.68	113.68	7.58	[ICRA]AA+(SO); reaffirmed	RBI

*Instrument details are provided in Annexure I;

[#]SEBI's grievance redressal/dispute resolution and SEBI investor protection mechanisms such as SCORES and ODR shall not be available for activities and instruments which fall under the regulatory purview of Financial Sector Regulators other than SEBI.

Rationale

The pass-through certificates (PTCs) are backed by microfinance loan receivables originated by Annapurna Finance Private Limited {AFPL/Originator; rated [ICRA]A- (Stable)}¹. AFPL is also the servicer for the transaction.

The rating reaffirmation factors in the build-up of the credit enhancement cover over the future PTC payouts on account of high pool amortisation. The rating also draw comfort from the fact that the breakeven collection efficiency is nil as the cash collateral (CC) covers the entire future PTC payouts as on August 2026 payout month.

Pool performance summary

Parameter	Nimbus MFI Trust 05 2025
Payout month	August 2026
Months post securitisation	15
Pool amortisation (as % of initial pool principal)	78.8%
PTC Series A1 amortisation (as % of initial PTC principal)	93.3%
Cumulative collection efficiency ²	97.8%
Cumulative prepayment rate ³	6.5%
Loss-cum-30+ days past due (dpd; % of initial pool principal) ⁴	4.9%
Loss-cum-90+ dpd (% of initial pool principal) ⁵	4.4%
Breakeven collection efficiency ⁶	Nil
Cumulative cash collateral (CC) utilisation	Nil
CC available (as % of balance pool)	28.3%
Excess interest spread (EIS; as % of balance pool) ⁷	6.3%
Principal subordination (% of balance pool principal)	72.8%

¹The current rating rationale of the originator, available at this [link](#), provides its detailed rating history and rating transitions.

² Cumulative current and overdue collections / (Cumulative billings)

³ prepayment of contracts prepaid till date / Initial pool principal

⁴ Unbilled and overdue principal portion of contracts delinquent for more than 30 days, as a % of Initial pool principal

⁵ Unbilled and overdue principal portion of contracts delinquent for more than 90 days, as a % of Initial pool principal

⁶ (Balance cash flows payable to investor – CC available) / Balance pool cash flows

⁷ (Pool cash flows till PTC maturity month – Cash flows to PTC – Originator's residual share) / Pool principal outstanding

Transaction structure

As per the transaction structure, the monthly cash flow schedule comprises the promised interest payout. The principal is expected to be paid on a monthly basis (86.50% of the pool principal billed) but is promised on the final maturity date. Any surplus excess interest spread (EIS), after meeting the promised and expected payouts, will flow back to the Originator on a monthly basis. Any prepayment in the pool would be used for the prepayment of the Series A1 PTC principal.

For every month when the portfolio at risk (PAR) 90+ of the pool exceeds 5% of the initial principal outstanding for any month, then 100% EIS shall be utilised towards the repayment of the principal payout to the Series A1 investors.

Key rating drivers and their description

Credit strengths

Substantial credit enhancement available in the structure – The rating factors in the build-up in the credit enhancement with the cash collateral (CC) fully covering the future PTC payouts. There is also credit enhancement in the form of EIS and subordination in the structure.

Adequate servicing capability of Annapurna – Annapurna, which would also be servicing the loans in the transaction, has an established track record in the micro finance lending business of over two decades and has adequate underwriting policies and collection procedures.

Credit challenges – Not applicable

Key rating assumptions

ICRA's cash flow modelling for rating securitisation transactions involves the simulation of potential losses, delinquencies and prepayments in the pool. The losses and prepayments are assumed to follow a log-normal distribution. The assumptions for the losses and the coefficient of variation are considered on the basis of the values observed from the analysis of the past performance of the Originator's loan portfolio as well as the characteristics of the specific pool being evaluated. The resulting collections from the pool, after incorporating the impact of the losses and prepayments, are accounted for in ICRA's cash flow model, in accordance with the cash flow waterfall of the transaction.

Details of key counterparties

The key counterparties in the rated transactions are as follows:

Transaction name	Nimbus MFI Trust 05 2025
Originator	Annapurna Finance Private Limited
Servicer	Annapurna Finance Private Limited
Trustee	Catalyst Trusteeship Limited
FD Bank	Axis Bank Limited
Collection and payout account bank	ICICI Bank Limited

Liquidity position: Superior

The liquidity is superior for Series A1 PTCs as CC fully covers future PTC payouts.

Rating sensitivities

Positive factors – Not applicable

Negative factors – The rating is unlikely to be downgraded as CC fully covers future PTC payouts.

Analytical approach

The rating action is based on the performance of the pool till the August 2026 payout month, the present delinquency profile of the pool of contracts, the performance expected over the balance pool tenure, and the credit enhancement available in the transaction.

Consolidation/Standalone	Not applicable

About the originator

Annapurna Finance Private Limited (AFPL), formerly known as Annapurna Microfinance Private Limited (AMPL), was formed by People's Forum, a society registered in Odisha. People's Forum has been engaged in various socio-economic development programmes, including microfinance, since 1990. In November 2009, People's Forum acquired an NBFC, Gwalior Finance and Leasing Company Private Limited, which was renamed AMPL in February 2010.

AFPL provides microcredit for mostly income-generating activities to women borrowers using the group lending model. It also offers other products such as individual loans to provide financial assistance to the MSME segment, home and home improvement loans, consumer durable loans, etc. As on March 2026, AFPL was catering to more than 29 lakh borrowers through a network of 1,757 branches spread across 464 districts in 22 states, while managing a portfolio of Rs. 11,535 crore.

Complexity level of the rated instrument

Instrument	Complexity indicator
Series A1 PTCs	Highly Complex

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click here](#)
