Details of instruments/facilities in Annexure-1.

Rationale and key rating drivers

CARE Ratings Limited (CareEdge Ratings) has analysed the credit profile of HDB Financial Services Limited (HDBFS) on a standalone basis while factoring in the strong support and linkages with HDFC Bank Limited (HBL; rated 'CARE AAA; Stable', 'CARE A1+') in the form of financial flexibility, management oversight and shared logo.

Reaffirmation of ratings to bank facilities and debt instruments factor in comfortable capitalisation levels and strong retail franchise, which is expected to further support HDBFS' asset under management (AUM) growth in the medium term. Post initial public offer (IPO), HBL continues to remain majority shareholder in HDBFS, holding ~74.12% in the company as on June 30, 2026. Ratings continue to factor in HDBFS' strategic importance to and expectation of continued support from its parent and majority shareholder. HDBFS also has strong financial flexibility which enables it to raise funds from diverse avenues at competitive rates.

However, CareEdge Ratings, takes cognisance of the company's presence in relatively riskier segments which exhibit sharper vulnerability in economic slowdowns and cyclicity. However, the company's stringent underwriting and provisioning buffers provide comfort. The rating assigned to the perpetual debt factors in the capital buffer and profitability maintained by HDBFS, in

¹SEBI: Securities and Exchange Board of India; RBI: Reserve Bank of India; MCA: Ministry of Corporate Affairs; IRDAI: Insurance Regulatory and Development Authority of India; PFRDA: Pension Fund Regulatory and Development Authority

²Complete definitions of the ratings assigned are available at www.careratings.com and in other CARE Ratings Limited's publications.

addition to the parentage of HBL. HDBFS has been maintaining adequate capital cushion (above 350 bps) over the minimum regulatory requirement, supported by periodic capital infusion by HBL and accretion of profits. CareEdge Ratings expects HDBFS to maintain similar capital cushion, above regulatory capital adequacy requirements going forward.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors: Factors that could, individually or collectively, lead to positive rating action/upgrade:

- Not applicable

Negative factors: Factors that could, individually or collectively, lead to negative rating action/downgrade:

- Material dilution in the ownership of, expected support from, and strategic importance to HBL.
- Deterioration in credit profile of HBL.
- Moderation in capital buffers of HDBFS and HBL with considerable decline in capital adequacy ratio close to the regulatory requirement.
- Deterioration in business growth and profitability on a sustained basis.
- Material dilution in asset quality parameters on a sustained basis.

Analytical approach:

Standalone, while factoring in support from and linkages with HBL, in the form of financial flexibility, management oversight, shared branding, and logo.

Outlook: Stable

The stable outlook factors in expectations that HDBFS will remain strategically important to HBL and will continue to receive need-based support from HBL. On the business front, CareEdge Ratings expects the company to maintain its healthy credit profile supported by strong retail franchise.

Detailed description of key rating drivers

Key strengths

Strong parentage; closely linked and strategic importance to the parent

HBL is the largest private sector bank in India with standalone total assets of ₹43,97,461 crore as on June 30, 2026, and has been identified as Domestic Systemically Important Bank (DSIB) by the Reserve Bank of India (RBI). Being a subsidiary of HBL with 74.12% stake as on June 30, 2026, HDBFS remains a strategically important entity for HBL and receives continued need-based support from HBL. HDBFS also has strong linkages with HBL in terms of sharing its logo, which enhances its financial flexibility. HBL also provides strategic oversight with representations on the Board and key committees. Mr. Jimmy Tata, who currently serves as Chief Credit Officer of HBL and was appointed as Whole-time Director (Executive Director) of HBL on September 12, 2026, is also a Nominee Director on the Board of HDBFS (which as on date is subject to approval of RBI). The company's operations are independently run by professional management team headed by Mr. G Ramesh (Managing Director and CEO) who has over two decades of experience across business development, banking, consumer finance and operations, assisted by a team of senior professionals.

HDBFS' Board comprises seven independent directors, including one Non-Executive director, having extensive experience across the spectrum of banking and financial services, in addition to MD and CEO. Given the shared logo and expectations of continued support from the parent, HDBFS' ratings derive significant strength from HBL and material weakening in HBL's credit profile and/or dilution of HDBFS' strategic linkages with HBL will be considered as a credit negative.

Established presence in granular retail segment with healthy share of secured loan portfolio and diversified product profile

HDBFS is one of the leading players in retail financing space and its lending profile mainly encompasses credit to underbanked customers in Tier III and below towns/areas with diversified loan book, having 74:26 mix of secured against unsecured businesses. The branch distribution is balanced with 31% in the north, 27% in the south, 25% in the west and 17% in the east, targeting unbanked areas with 71% of branches in Tier IV and smaller towns as on June 30, 2026.

As on June 30, 2026, AUM stood at ₹1,22,048 crore, with enterprise lending [primarily comprising loan against property (LAP), business loan, enterprise business loan, gold loan and salaried personal loans] continuing to account for majority share at 38% (March 31, 2026: 38%), followed closely by asset backed finance (primarily comprising commercial vehicle, construction

equipment and tractor financing) at 37% (March 31, 2026: 38%) and consumer finance (primarily comprising auto loans, relationship personal loans, consumer durable loans, two wheeler and micro lending) at 25% (March 31, 2026: 24%). Its diverse customer base includes salaried individuals, self-employed professionals, and small business owners. Concentration risk remains low, with top 20 customers accounting for just 0.30% of gross loan book as on June 30, 2026. In the last five years, the company developed a strong franchise and geographical reach with 1,710 branches across 1,165 locations as on June 30, 2026.

Comfortable capitalisation supported by internal accruals and strong capital raising ability

Strong ability to raise capital and internal accruals have helped HDBFS to maintain comfortable capital adequacy ratio (CAR) which stood at 21.29% with Tier-I CAR at 17.15% as on June 30, 2026 (March 2026: CAR – 21.40% and Tier-I CAR – 17.06%). The company reported adjusted tangible net worth (TNW) and gearing of ₹19,778 crore and 5.16x as on June 30, 2026, improved from ₹14,445 crore and 6.11x respectively as on March 31, 2025, supported by fresh capital of ₹2,500 crore raised through IPO during Q1FY26. Strong linkages with HBL also provide HDBFS a healthy financial flexibility and enables it to raise resources at competitive rates and tenors.

As on June 30, 2026, borrowings mix remained well diversified with 45.4% of total borrowings coming from bank loans, 29.4% from NCDs, 12.3% from external commercial borrowings (ECBs), 6.9% from subordinated & perpetual debt, 4.1% from securitisation and 1.9% from commercial papers. This diversified borrowing strategy helps HDBFS maintain a sustainable and well-managed maturity profile for its debt. The company aims to match fixed to floating proportion of its borrowings aligned with lending profile to protect earnings from adverse interest rate movements. As on March 31, 2026, 58.79% of the total borrowings were subject to fixed interest rates, with 41.21% of the total borrowings subject to floating interest rates. CareEdge Ratings expects HDBFS to continue to benefit by way of being a subsidiary and raise funding at competitive cost going forward as well.

Healthy profitability metrics, despite asset quality challenges

HDBFS' disbursements grew by compounded annual growth rate (CAGR) of 19% for last three years. Backed by consistent disbursements, the company's AUM increased from ₹1,07,262 crore as on March 31, 2025, to ₹1,18,733 crore as on March 31, 2026, and further to ₹1,22,048 crore as on June 30, 2026. HDBFS' net interest margin (NIM) improved to 8.04% in Q1FY27 and 7.82% in FY26 from 7.49% in FY25, driven by moderation in cost of funds on account of the policy rate cuts and improvement in the gearing levels.

Despite increase in credit costs to 2.37% in FY26, up from 2.05% in FY25, the overall profitability (return on managed assets [ROMA]) has increased, which stood at 2.14% (PY: 2.11%) on account of improvement in NIM. In Q1FY27, asset quality trends improved with credit costs declining to 2.16%, while profitability strengthened further, with ROMA increasing to 2.44%, driven by sustained margin expansion and operating efficiency. CareEdge Ratings expects ROMA to be in the range of 2-2.5% going forward supported by likely improvement in yield on advances on account of product mix changes driven by reduced share of low-yielding products and operating efficiencies.

Key weaknesses

Moderate asset quality and presence in unsecured and relatively riskier segments

HDBFS primarily operates in Tier III and below geographies, which constituted ~80% of its portfolio as of June 30, 2026. These regions are associated with relatively riskier asset classes, given the heightened vulnerability of borrower cash flows to economic shocks. Given the significant portfolio growth for last two years and macroeconomic headwinds, the company faced asset quality challenges, resulting in increase in the overall gross non-performing assets (GNPA) and net NPA (NNPA) levels from 2.26% and 0.99% respectively as on March 31, 2025, to 2.44% and 1.09% as on March 31, 2026 (2.34% and 1.04% as on June 30, 2026), along with marginal increase in write-offs as a % of opening AUM from 2.30% in FY25 to 2.37% in FY26 (0.48% in Q1FY27).

As on June 30, 2026, the company's loan book remains largely secured, with ~74% of loan book backed by collaterals, helping to mitigate potential credit losses and provision coverage ratio on stage-3 assets at 55.5% as on March 31, 2026, and 55.9% as on March 31, 2025 (55.7% as on June 30, 2026). The company continues to focus on asset quality, supported by prudent underwriting, proactive collections, and robust provisioning buffers. Its strong risk controls and early warning systems help to monitor risk. While CareEdge Ratings acknowledges presence of a secured loan book, asset quality will remain a key area of focus going forward, especially considering rising delinquencies in unsecured micro, small and medium enterprise (MSME) segment in recent times.

Liquidity: Strong

As on June 30, 2026, HDBFS' liquidity position remained strong with positive cumulative mismatches across all the buckets. Over the next one year (July 01, 2026, till June 30, 2027), the company has debt repayment obligations of ₹33,856 crore. Against this, the company has adequate liquidity in the form of cash and liquid investments of ₹5,177 crore and scheduled collection inflows

of ₹45,333 crore. HDBFS's strong financial flexibility, resource raising ability and unutilised bank lines aggregating to ₹5,353 crore provides additional comfort.

Assumptions/Covenants

Not applicable

Environment, social, and governance (ESG) risks

Although HDBFS' service-oriented business model limits its direct exposure to environmental risks, credit risk may arise if operations of any asset class of the portfolio are adversely impacted by environmental factors. Social risks in the form of cybersecurity threat or customer data breach or mis-selling practices can affect HDBFS' regulatory compliance and reputation and hence remain a key monitorable. HDBFS' Board comprises eight directors, with seven independent directors including two female directors.

About us:

Established in 1993, CareEdge Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the Reserve Bank of India. With an equitable position in the Indian capital market, CareEdge Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CareEdge Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CareEdge Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit. For more information: www.careratings.com

Disclaimer:

This disclaimer pertains to the ratings issued and content published by CARE Ratings Limited ("CareEdge Ratings"). Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. Any opinions expressed herein are in good faith and are subject to change without notice. The rating reflects the opinions as on the date of the rating. A rating does not convey suitability or price for the investor. The rating agency does not conduct an audit on the rated entity or an independent verification of any information it receives and/or relies on for the rating exercise. CareEdge Ratings has based its ratings/outlook on the information obtained from reliable and credible sources. CareEdge Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. The users of the rating should rely on their own judgment and may take professional advice while using the rating in any way. CareEdge Ratings shall not be liable for any losses that user may incur or any financial liability whatsoever to the user of the rating. The use or access of the rating does not create a client relationship between CareEdge Ratings and the user.

CAREEDGE RATINGS DISCLAIMS WARRANTY OF ANY KIND, EXPRESS, IMPLIED OR OTHER WARRANTIES OR CONDITIONS, TO THE EXTENT PERMITTED BY APPLICABLE LAWS, INCLUDING WARRANTIES OF MERCHANTABILITY, ACCURACY, COMPLETENESS, ERROR-FREE, NON-INFRINGEMENT, NON-INTERRUPTION, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE OR INTENDED USAGE.

Most entities whose bank facilities/instruments are rated by CareEdge Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CareEdge Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. CareEdge Ratings does not act as a fiduciary by providing the rating. The ratings are intended for use only within the jurisdiction of India. The ratings of CareEdge Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades. CareEdge Ratings has established policies and procedures as required under applicable laws and regulations which are available on its website.
