Rationale and key rating drivers

CARE Ratings Limited (CARE Ratings) has reaffirmed ratings of Series A1 pass-through certificates (PTCs) issued by Raquel 12 23, backed by microfinance loans receivables originated by Spandana Sphoorty Financial Limited (SSFL), at 'CARE AA- (SO)' [pronounced as Double A Minus (Structured Obligation)].

Reaffirmation in ratings is primarily based on performance of underlying loans in the last seven months post-securitisation, robust legal structure, well-defined payment mechanism, significant build-up in cash collateral (CC) and over collateral (OC) – as a percentage of balance amount of PTCs, subordination of excess interest spread (EIS), servicing capability and overall performance of SSFL.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors - Factors that could, individually or collectively, lead to positive rating action/upgrade:

- Delinquencies (90+ days past due [DPD]) of less than 2% and sustained high collection efficiency (cumulative collection efficiency of over 98%).

Negative factors - Factors that could, individually or collectively, lead to negative rating action/downgrade:

- Delinquencies (90+ DPD) of over 5% and sustained lower collection efficiency (cumulative collection efficiency of less than 90%).
- Deterioration in credit profile of the originator.
- Utilisation of CC.
- Non-adherence of transaction structure.

Analytical approach

Rating reaffirmation is based on inter alia, observed and expected performance of pool, presence of credit enhancement (CE) and adherence to the transaction structure.

Pool Performance Summary:

The pool has amortised by 55% in nine months post-securitisation, with nil utilisation of CC. The pool has exhibited low delinquencies. As on September 2024, overdue (OD) (as a percentage of the initial principal outstanding [POS]) is 2.16%. The CE available is sufficient to sustain the ratings for the balance tenure.

Pool summary (as of September 2024 payout)	
Months post-securitisation	9
Pool amortisation	54.80%
30+ delinquency (percentage of the initial pool POS)	7.04%
90+ delinquency (percentage of the initial pool POS)	3.11%
Overdue amount (percentage of the initial pool POS)	2.16%
CCE	96.69%
CC as a percentage of the balance pool POS	22.73%
Cumulative prepayments	11.37%

¹Complete definitions of ratings assigned are available at www.careedge.in and in other CARE Ratings Limited's publications.

Detailed description of key rating drivers

Key strengths:

- CC as a percentage of PTC POS is 22.73%, which remains unutilised, and OC, which is 28.41% of PTC POS.
- The pool has performed on expected lines for 9 months (post-securitisation) and has amortised ~55%.
- Well-defined payment mechanism and adherence to the transaction structure.

Key weaknesses:

- The 90+ DPD in the pool is at 3.11% with OD of 2.16% (as a percentage of initial pool POS).
- Weak borrower profile as this segment is susceptible to socio-political interference and other external shocks.

Liquidity: Strong

Inherent liquidity in the structure is strong. Interest payouts for Series A1 PTCs are promised monthly, while the principal of Series A1 PTCs is promised to be paid by final legal maturity. In case of delinquencies, payouts are expected to be supported by CE consisting of CC, principal subordination in the form of OC and EIS.

Key rating assumptions

CARE Ratings has analysed the transaction to assess whether CE is sufficient to cover shortfalls. Since the transaction is sensitive to credit quality of underlying pool, CARE Ratings has analysed pool performance and overall portfolio performance of the originator. Considering borrower profile and nature of loan, pool characteristics and portfolio performance, CARE Ratings has taken average peak shortfall from 7-9% of POS. Base case shortfalls were stressed along with other key factors such as timing of shortfalls, recovery assumptions, and time to recovery. CARE Ratings has found that CE provided is sufficient to cover shortfalls in a stress scenario commensurate with the assigned rating. Pool cash flow has been further adjusted for prepayments of underlying loans, assuming monthly prepayments in the range of 0.50%-1.00%.

About the company and industry

Industry classification

Macroeconomic indicator	Sector	Industry	Basic industry
Financial services	Financial services	Finance	Securitisation

SSFL is primarily engaged in extending microfinance loans through joint liability group (JLG) model to borrowers belonging to low-income household in 1997. In 2003, the company was registered with RBI, as a non-deposit taking non-banking finance company ("NBFC-ND") and is currently registered under the new category of NBFC-MFI. The company went into CDR, post the AP crisis in 2010 and exited CDR in April 2017.

SSFL was promoted by Padmaja Reddy, who holds ~8.57% stake in the company and Vijaya Sivarami Reddy Vendidandi (holding 0.15%). Other major stakeholders are Kedaara Capital and Affiliates (holding 7.03%) and Kangchenjunga Limited (holding 41.10%). The new CEO, Shalabh Saxena, and CFO Ashish have come from Bharat Financial Inclusion Limited (BFIL). Positions of CTO, CBO and CXO were also filled by Kedaara Capital.

Spandana has a presence in 20 states with 1570 branches. The portfolio is diversified, as Odisha constituted the maximum of 13.60%, but the top four states constituted 48.81% of the portfolio. SSFL is focused on its micro-credit business and follows JLG model for risk mitigation. SSFL's business is targeted towards under-privileged women. Each centre typically manages 1-3 groups, with each group consisting of 8-12 members.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
