### Rationale and key rating drivers

CARE Ratings Limited (CARE Ratings) has reaffirmed the rating of the Series A1 PTCs issued by Gimmick ABFL 05 2023, backed by microfinance loans receivables originated by Spandana Sphoorty Financial Limited (SSFL), at 'CARE A+ (SO)' [pronounced as Single A Plus (Structured Obligation)].

Reaffirmation in the rating is primarily based on the performance of underlying loans in the last 14 months post-securitisation, robust legal structure, well-defined payment mechanism, significant build-up in cash collateral (CC) and over collateral (OC) – as a percentage of the balance amount of pass-through certificates (PTCs), the subordination of excess interest spread (EIS), servicing capability, and overall performance of SSFL.

### Rating sensitivities: Factors likely to lead to rating actions

#### Positive factors - Factors that could, individually or collectively, lead to positive rating action/upgrade:

- Delinquencies (90+ days past due [DPD]) of <2% and the sustained high collection efficiency (cumulative collection efficiency of >98%).

#### Negative factors - Factors that could, individually or collectively, lead to negative rating action/downgrade:

- Delinquencies (90+ DPD) of >5% and the sustained lower collection efficiency (cumulative collection efficiency of <90%).
- Deterioration in the credit profile of the originator.
- Any utilisation of CC.
- Non-adherence to key transaction terms envisaged at the time of the rating.

### Analytical approach

The rating is reaffirmed based on inter alia, observed and expected performance of pool, presence of credit enhancement, and adherence to the transaction structure.

#### Pool Performance Summary:

The pool has amortised by 81.00% in 14 months post-securitisation, with nil utilisation of CC. The pool has exhibited low delinquencies. As of July 2024, overdue (OD) (as a percentage of the initial principal outstanding [POS]) is 1.44%. The credit enhancement (CE) available is sufficient to sustain rating for the balance tenure.

| Pool summary (as of July 2024 payout)                |        |
|------------------------------------------------------|--------|
| Months post-securitisation                           | 14     |
| Pool amortisation                                    | 81.00% |
| 30+ delinquency (percentage of the initial pool POS) | 3.34%  |
| 90+ delinquency (percentage of the initial pool POS) | 2.43%  |
| Overdue amount (percentage of the initial pool POS)  | 1.44%  |
| CCE                                                  | 98.26% |
| CC as a percentage of the balance pool POS           | 77.78% |
| Cumulative prepayments                               | 13.55% |

## Detailed description of key rating drivers

### Key strengths:

- CC as a percentage of PTC POS is 77.78%, which remains unutilised, and OC, which is 111.12% of PTC POS.
- The pool has performed on expected lines for 14 months (post-securitisation) and has amortised 69.41%.
- Well-defined payment mechanism and adherence to the transaction structure.
- The 90+ DPD and OD in the pool is moderate at 2.43% and 1.44% (as a percentage of initial pool POS), respectively.

### Key weakness:

- Weak borrower profile as this segment is susceptible to socio-political interference and other external shocks.

### Liquidity: Adequate

The inherent liquidity in the structure is adequate. The interest payouts for Series A1 PTCs are promised monthly, while the principal of Series A1 PTCs is promised to be paid by final legal maturity. In case of delinquency, the payouts are expected to be supported by CE consisting of CC, principal subordination in the form of OC, and EIS.

### Key rating assumptions

CARE Ratings has analysed the transaction to assess whether the CE is sufficient to cover shortfalls. Since the transaction is sensitive to the credit quality of the underlying pool, CARE Ratings has analysed the performance of the pool and the overall portfolio performance of the originator. Considering the borrower profile and the nature of the loan, the pool characteristics and the portfolio performance, CARE Ratings has taken the average shortfall from 7% to 9% of the principal outstanding. The base case shortfalls were stressed and other key factors such as the timing of shortfalls, the recovery assumptions, and the time to recovery. CARE Ratings has found that the CE provided is sufficient to cover shortfalls in a stress scenario commensurate with the assigned rating. The pool cash flow has been further adjusted for prepayments of underlying loans, assuming monthly prepayments between 0.5% and 1.0%.

SSFL was incorporated on March 10, 2003, under the provisions of the Companies Act, 1956. It was registered as a non-deposit accepting non-banking finance company (NBFC) with the Reserve Bank of India (RBI) and was classified as an NBFC-microfinance institution (MFI) effective April 13, 2015. The company went into CDR, post the AP crisis in 2010 and exited CDR in April 2017.

SSFL was promoted by Padmaja Reddy, who holds around 15% stake in the company and is a member of the board but does not hold significant control. Other major stakeholders are Kedaara Capital and Affiliates (holding 58.19%), JM Financial Products Limited (holding 9.94%), and Valiant Mauritius Partners FDI Ltd. (holding 9.46%). The new CEO, Shalabh Saxena, and the CFO, Ashish, have prior experience in Bharat Financial. The positions of CTO, CBO and CXO were filled thereafter by Kedaara Capital.

SSFL has presence in 14 states with 1,533 branches. The portfolio is moderately diversified, as Madhya Pradesh constituted the maximum of 21.31%, and the top four states constituted 76.06% of the portfolio. SSFL is focused towards its micro-credit business and follows the joint-liability group (JLG) model for risk mitigation. SSFL's business is targeted towards under-privileged women. Each centre typically manages one to three groups, with each group consisting of eight to 12 members.

CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

### Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
