Rationale and key rating drivers

CARE Ratings Limited (CareEdge Ratings) has reaffirmed credit quality rating (CQR) assigned to Axis Liquid Fund, Axis Money Market Fund, Axis Overnight Fund, Axis Ultra Short to Short Term Fund (Formerly known as Axis Treasury Advantage Fund) and Axis Ultra Short Term Fund (Formerly known as Axis Ultra Short Duration Fund). These funds are managed by Axis Asset Management Company Limited.

Schemes rated 'CARE AAA mfs' are considered to have the highest degree of safety regarding timely receipt of payments from investments that have been made.

Schemes rated 'CARE A1+mfs' are considered to have very strong degree of safety regarding timely payment receipt from investments that have been made.

CareEdge Ratings' fund CQR is an opinion on overall credit quality of a debt mutual fund scheme or debt exchange traded funds (ETFs). CareEdge Ratings' Fund CQR is not a recommendation to purchase, sell, or hold a security/fund. They comment neither on current market price, suitability for a particular investor, nor on prospective fund performance appreciation, net asset value (NAV) volatility, or fund yield. Ratings do not address the fund's ability to meet payment obligations to investors.

Ratings are not an opinion on fund management practices (including fund structure, expense ratios, and marketing activities), financial performance, and management quality of an AMC, and hence do not comment on business practices. Ratings are also not indicative of compliance and reputation risks, liquidity, market, and sectoral risks.

Ratings capture the fund's overall exposure to default risk based on credit quality of individual securities in the portfolio. CareEdge Ratings' Fund CQR is based on evaluation of the fund's stated investment strategy and portfolio credit risk. It involves evaluation of credit quality of individual securities and diversification of the portfolio. CareEdge Ratings uses the concept of credit scores assigned to individual securities, per credit scoring matrix developed by it.

CareEdge Ratings reviews the rated mutual fund scheme on an ongoing basis to support its published rating opinions. As such, the fund's portfolio is reviewed monthly. A detailed annual review of the funds is also additionally undertaken. The fund must maintain fund credit score within the benchmark fund score associated with a given rating level. If in a particular month the fund credit score breaches the benchmark, CareEdge Ratings generally provides a month to the AMC to realign the score.

Credit scores of these schemes have been calculated based on the portfolio outstanding as on August 31, 2026, and are within the benchmark set by CareEdge Ratings.
