Rationale and key rating drivers

CARE Ratings Limited (CareEdge Ratings) has reaffirmed credit quality ratings (CQRs) assigned to Invesco India Banking and PSU Debt Fund (formerly known as Invesco India Banking and PSU Fund), Invesco India Corporate Bond Fund, Invesco India Liquid Fund, Invesco India Money Market Fund, Invesco India Overnight Fund, Invesco India Short-Term Fund (formerly known as Invesco India Short Duration Fund), Invesco India Ultra Short to Short Term Fund (formerly known as Invesco India Low Duration Fund), and Invesco India Ultra-Short-Term Fund (formerly known as Invesco India Ultra Short Duration Fund). These funds are managed by Invesco Asset Management (India) Private Limited; asset management company (AMC).

Schemes rated 'CARE AAA mfs' are considered to have the highest degree of safety regarding receiving timely payments from investments they have made.

Schemes rated 'CARE A1+mfs' are considered to have a strong degree of safety regarding receiving timely payments from investments they have made.

CareEdge Ratings' CQR is an opinion on the overall credit quality of a debt mutual fund scheme. CareEdge Ratings' fund CQR is not a recommendation to purchase, sell, or hold a security or fund. They comment neither on the current market price or suitability for a particular investor, nor on the prospective performance of the fund regarding appreciation, volatility of net asset value (NAV), or yield of the fund. Ratings do not address the fund's ability to meet payment obligations to investors.

[2]Complete definitions of ratings assigned are available at www.careratings.com and in other CARE Ratings Limited's publications.

Ratings are not an opinion on the fund management practices (including fund structure, expense ratios, and marketing activities), financial performance, and management quality of an AMC, and hence, do not comment on business practices. Ratings also do not indicate compliance and reputation risks, liquidity, market, and sectoral risks.

Ratings capture the fund's overall exposure to default risk based on the credit quality of individual securities in the portfolio. CareEdge Ratings' fund CQR is based on evaluation of the fund's investment strategy and portfolio credit risk. It also involves evaluation of the credit quality of individual securities and diversification of portfolios. CareEdge Ratings uses the concept of credit scores assigned to individual securities, per the credit scoring matrix developed by it.

CareEdge Ratings reviews the rated mutual fund scheme on an ongoing basis to support its published rating opinions. As such, the fund's portfolio is reviewed monthly. A detailed annual review of funds is also additionally undertaken. The fund must maintain fund credit score within the benchmark fund score associated with a given rating level. If in a particular month the fund credit score breaches the benchmark, CareEdge Ratings generally provides a month to the AMC to realign the score.

Credit scores of these schemes have been calculated based on the portfolio outstanding as on August 31, 2026, and are within the benchmark set by CareEdge Ratings.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors: Factors that could individually or collectively lead to positive rating actions/upgrade:

- Not applicable

Negative factors: Factors that could individually or collectively lead to negative rating actions/downgrade:

- CareEdge Ratings can downgrade ratings of schemes if the credit quality of underlying securities declines, resulting in a breach in the threshold limit set by CareEdge Ratings for a given rating level.

Analytical approach:

Assessment of underlying credit quality of debt schemes.

Detailed description of key rating drivers

Credit score of these rated schemes has been calculated based on portfolio outstanding as on August 31, 2026, and are within the benchmark set by CareEdge Ratings. CareEdge Ratings reviews a mutual fund scheme on an on-going basis to support its published rating opinions. Fund portfolio is reviewed monthly. Detailed annual review of the fund is also undertaken. The fund must maintain the fund credit score within the benchmark fund score associated with a given rating level. If in a particular month, the fund credit score breaches the benchmark, CareEdge Ratings generally provides a curing of one month to the AMC to correct the situation and realign the score.
